### How to measure:

For best results, take measurements over your underwear.

### Chest:

Measure under your arms, around the fullest part of your chest.

### Sleeve:

Measure from the center of your back to your wrist with arms held out.

### Natural Waist:

Measure around your natural waistline, keeping the tape a bit loose.

### Inseam:

Using pants that fit well, measure the crotch seam to the bottom of the leg.

### Outseam:

Using pants that fit well, measure the side seam from top of the waistband to the bottom of the leg.

This chart is intended to determine what your true size is in Armada clothing.

### Long Fit

A common refrain among some team members was "not wider, just longer." Our new Long Fit delivers, adding 4 inches of length to jackets/hoodies and 2" of length to tech tees.

### PLEASE NOTE:

Our Long Fit is much longer throughout the entire size range than traditional jackets on the market. Its designed to provide extra length in your true size so the rest of the jacket fits you properly. This fit stays true to our team's request for "not wider, just longer" and sizing-up is not necessary.
