

SKI FIT

ATOMIC RELAXED FIT

Our skiwear sits off the body. So it's relaxed and comfortable without being too baggy. We've also designed our jackets and pants to move with you while you ski.

Our jackets have extended necklines and storm collars for added wind protection around the face.

Our vents are at the front not under your arms - better for airflow and easier to zip up in any situation.

Extra space in the back, elbows and specifically the shoulders make it easy to move.

Keep your lift pass where you need it with a left sleeve pass pocket and pant loop.

Our snow skirts use a stretchy and breathable material and have a jacket-to-pant interface.

An articulated cut around the hip keeps you comfortable in the ski position, while hook & loop tabs on the waist let you personalize your fit.

An articulated cut round the knees help you bend into a better skiing position without feeling restricted.

Wrist gaiters are made of stretch knit with an articulated cuff to keep the snow out.

Our pants have removable bibs and adjustable, removable suspenders that let you customize your pants and stay completely comfortable.

Scuff guards are made from super durable Keprotec fabric.

FINDING YOUR MEASUREMENTS

SLEEVE
With your arms in a slightly bent position, measure from the centre of the back of your neck, along the length of your arm, to the wrist.

CHEST
Measure around your chest, holding the measuring tape under your armpit.

WAIST
Measure around your waist at the narrowest part.

HIP
Measure around your hips at the widest part.

INNER LEG
From a standing position, measure inner leg to your ankle.
