

## GLOVES (measured in cm)

### How do I determine which size gloves suit me?

A guideline is to measure the size of your hands between your thumb and under your fingers. Do this with the hand that you prefer to use, so right-handed people measure their right hand and vice versa. In the table below you can see which size is likely to fit. If in doubt, take a size bigger.

Size	XS	S	M	L	XL	XXL	3XL
Circumference	19-20	20-21	21-22	22-23	24-25	25-26	26-27

  

Size	4XL	5XL	LXS	LS	LM	LL	LXL
Circumference	27-28	28-29	15,5-17	17-18,5	18,5-20	20-21,5	21,5-23
