

## Size and Care

Feetures socks begin with a technical advantage that provide a unique fit and feel unlike any other sock. Our socks are designed to fit snug in order to help prevent bunching or pinching and reduce the risk of blisters. Please use the sizing chart below as a guide. If you are in between sizes we generally suggest you go up to the bigger size for maximum comfort. Please contact [hello@feetures.com](mailto:hello@feetures.com) with any other sizing questions.
