

# SIZE GUIDE

How to measure your size:

All IJH A/S sizes are based on a standard Height of 172 +/- 4cm. For heights outside of our standards, be aware that clothes might fit differently on the body.

Please note that chest, waist and hip are body measures and not clothing measures. Sizes may still vary in regards to whether it is a fitted or an oversized style.

- A: Chest: Measure around the fullest part of your bust.
- B: Waist: Measure around your natural waistline – above your navel and below your rib cage
- C: Hip: Measure around the fullest part of your hip.
- D: Inseam: Measure inside leg from crotch to your ankle.
