Size guide

Children grow and grow, and we know that the perfect size is important for you, and your child. Therefore, it is also important for us. To make it as easy as possible, we have created a size guide, which can help you find the right size for your child.
Our clothes come in sizes that match your child's height and age. However, we recommend that you primarily use your child's height, because size in relation to age can vary.

The more measurements you have from your child, the easier it is to order the right size. If your child is between two sizes, we recommend that you order the largest size. Then you are sure that your child has the best movability and comfort for the longest time.

Example: If your child is 7 years old and 130 cm tall, you must choose a size 134 in our single sizes and 134/140 in our double sizes.

Tip: Measure your child directly on the body and remember to have fun. Make it into a fun guessing game, where your child can guess the measurements and help to find the right size in the table.
