

Every day usage

For us it is important that your head is well protected for urban sports. Therefore, we recommend that you always use a helmet. Remember that if you have your helmet in bad position, is like you had no helmet. It is important to have a good fit and always buckled. We left you a figure to see how to use it.

Place the strap joint above the earlobes and the buckle should be just under the chin, with about one finger's width of space between the strap and the chin.
The helmet must **ALWAYS** be buckled.

Fit and place your helmet correctly.
