

# SNOWBOARD BOOTS

MEN

SIZE	FOOT LENGHT (mm)	FOOT LENGHT (in)	EU SIZE	US SIZE
23	230	9,05	36,5	5
23,5	235	9,25	37	5,5
24	240	9,45	37,5	6
24,5	245	9,64	38	6,5
25	250	9,84	38,5	7
25,5	255	10,04	39	7,5
26	260	10,24	40	8
26,5	265	10,43	40,5	8,5
27	270	10,63	41	9
27,5	275	10,83	42	9,5
28	280	11,02	42,5	10
28,5	285	11,22	43	10,5
29	290	11,42	44	11
29,5	295	11,61	44,5	11,5
30	300	11,81	45	12
31	310	12,2	45,5	13
32	320	12,6	47	14
33	330	12,99	48	15

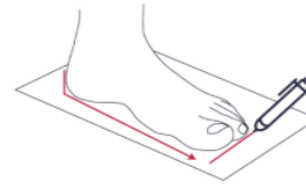

Take your foot measurements, then choose the appropriate shoe size:

1. Put a sheet of paper on the floor against a wall.
2. Wear the socks you would normally wear in your shoes.
3. Stand on the sheet so that your back is flat against a wall (foot perpendicular to the wall) with your heels glued to the wall.
4. Draw a marker in front of your big toe (the furthest forward of your foot).
5. Measure the length between the edge of the sheet and the marker drawn. It is recommended to do this for both the left and right foot and to take into consideration the longer length.
6. To know your shoe size, take a ruler and measure the distance between the wall and the mark you have drawn. Then simply enter it in the corresponding cell in the "foot length" column.

## WOMEN

SIZE	FOOT LENGHT (mm)	FOOT LENGHT (in)	EU SIZE	US SIZE
22	220	8,66	34,5	5
23	230	9,05	36,5	6
23,5	235	9,25	37	6,5
24	240	9,45	37,5	7
24,5	245	9,64	38	7,5
25	250	9,84	38,5	8
25,5	255	10,04	39	8,5
26	260	10,24	40	9
26,5	265	10,43	40,5	9,5
27	270	10,63	41	10

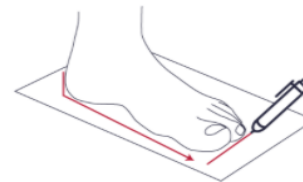

Take your foot measurements, then choose the appropriate shoe size:

1. Put a sheet of paper on the floor against a wall.
2. Wear the socks you would normally wear in your shoes.
3. Stand on the sheet so that your back is flat against a wall (foot perpendicular to the wall) with your heels glued to the wall.
4. Draw a marker in front of your big toe (the furthest forward of your foot).
5. Measure the length between the edge of the sheet and the marker drawn. It is recommended to do this for both the left and right foot and to take into consideration the longer length.
6. To know your shoe size, take a ruler and measure the distance between the wall and the mark you have drawn. Then simply enter it in the corresponding cell in the "foot length"

## JUNIOR

SIZE	FOOT LENGHT (mm)	FOOT LENGHT (in)	EU SIZE	US SIZE
18	180	7,09	30	13 (youth)
19	190	7,48	31	1 (youth)
20	200	7,87	32	2 (youth)
21	210	8,27	33	3 (youth)
22	220	8,66	34,5	4 (youth)
22,5	225	8,86	35,5	5 (youth)

Take your foot measurements, then choose the appropriate shoe size:

1. Put a sheet of paper on the floor against a wall.
2. Wear the socks you would normally wear in your shoes.
3. Stand on the sheet so that your back is flat against a wall (foot perpendicular to the wall) with your heels glued to the wall.
4. Draw a marker in front of your big toe (the furthest forward of your foot).
5. Measure the length between the edge of the sheet and the marker drawn. It is recommended to do this for both the left and right foot and to take into consideration the longer length.
