

FITPHILOSOPHY

■ ■ ■ ■ FIT

» At Sugoi, we take fit seriously. We know that fit is a critical element in the performance of a garment, and we offer 3 different fit categorizations to fit a wide range of body types, from lean athletic ectomorphic builds to stockier endomorphic builds. All of our garments are fit on a standard base size fit model (Men's size L, Women's Size M), and we anatomically grade our garments to fit the majority of the size curve.

FIT FOR YOUR BODY TYPE

» PROFIT

Garments with a pro-fit designation are anatomically form fitted to the body for optimal performance and low wind drag. These garments are ideally suited for runners and cyclists with lean athletic builds.

» SEMIFIT

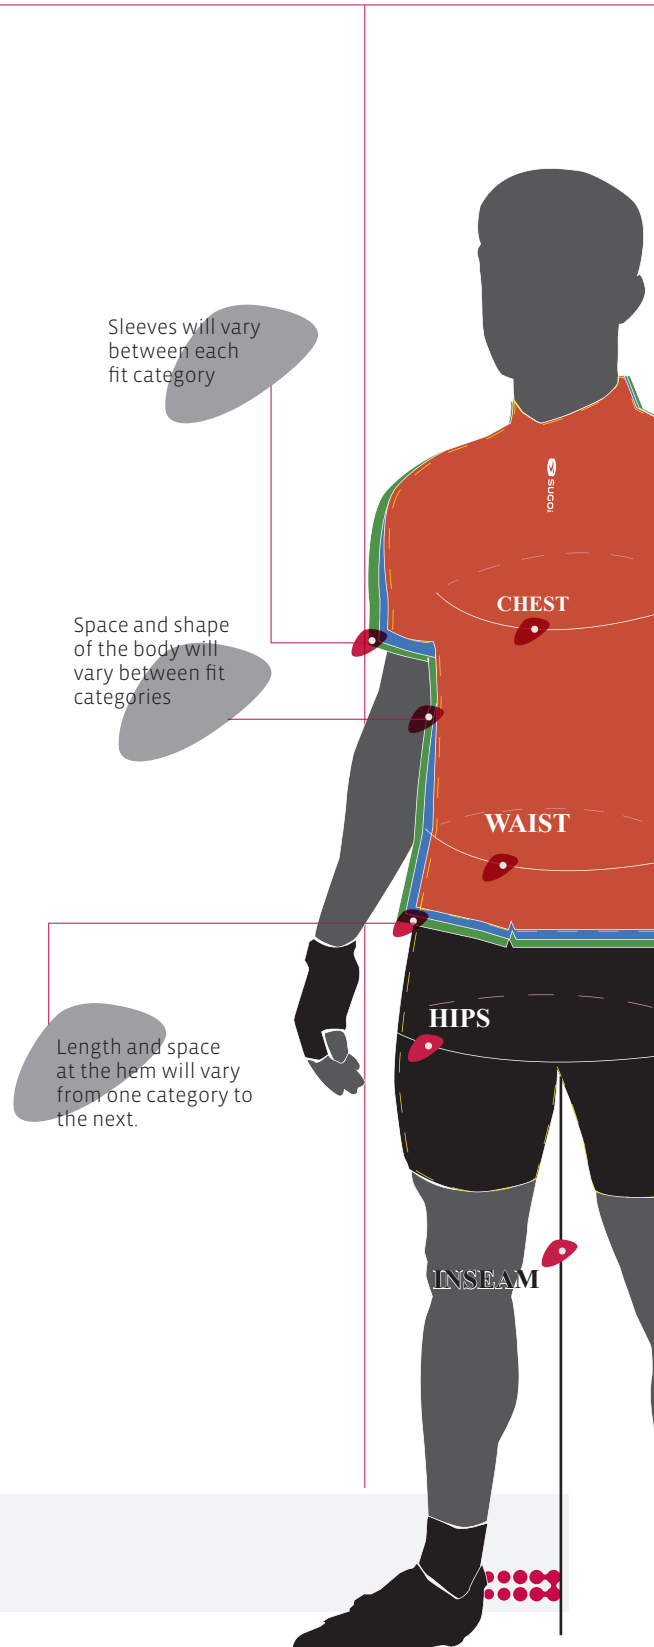

Our semi-fit garments are designed to fit close to the body but not so tight that you'll feel self-conscious at the coffee shop when you're picking up a post ride or run drink. Suitable for a wide range of body types and offered in our most popular styles.

» RELAXEDFIT

Garments with a relaxed fit icon are designed to fit looser on your body, similar to how a T-shirt or board shorts would fit. Relaxed fit garments are suitable for endomorphic body types and riders/runners seeking loose fit apparel for general fitness activity, trail riding, or low impact post-workout pursuits.
