

# CUSTOM FITTING

This table indicates the correspondence between the TACTIC Custom Line sizes and the measurements in **centimeters** of your body. To determine the most suitable size we have to measure on the naked body, ensuring that the tape measure adheres perfectly to the skin without squeezing.

## HOW TO MEASURE

- A** Standing up, under the lower armpit breathing normally (the circumference of the chest)
- B** Standing up, around the naval (the circumference of the stomach)
- C** Standing up, with the arm at 90°, measure from the outside bone from the shoulder to the wrist.
- D** Standing up, at the hip bone, (the circumference of the waist).
- E** Standing up, the inside leg measurements (to the ankle)

\*It is advisable not to take oneself measures

\*measurements in cms

## MAN INTERNATIONAL CLOTHING SIZE
