

Men's Shoes

- All of our men's shoes are wider than conventional men's shoes. If you normally wear a larger size to get a wider fit in conventional shoes, you may not have to do that with Xero Shoes.
- Natural materials (like leather or canvas) may stretch during initial wear.
- If you think of your foot as particularly narrow, you can consider ordering a women's style. Many of our male customers find a great fit in our women's styles. Just be sure to adjust the size by 1.5 (for example a men's 7 is the same as a women's 8.5).
- People like different types of fit – some like their toes near the end, others like 1/4"-1/2" of extra space.

Men's Shoe Size Conversion Chart

US Sizes	EU Sizes	UK Sizes	JP Sizes
6.5	39.5	5.5	24.5
7	40	6	25
7.5	40.5	6.5	25.5

Women's Shoes

- All of our women's shoes are wider than conventional women's shoes. If you normally wear a larger size to get a wider fit in conventional shoes, you may not have to do that with Xero Shoes.
- Natural materials (like leather or canvas) may stretch during initial wear.
- If you think of your foot as particularly wide, you can consider ordering a men's style. Many of our female customers find a great fit in our men's styles. Just be sure to adjust the size by 1.5 (for example a men's 7 is the same as a women's 8.5).
- People like different types of fit – some like their toes near the end, others like 1/4"-1/2" of extra space.

Women's Shoe Size Conversion Chart

US Sizes	EU Sizes	UK Sizes	JP Sizes
5	35.5	3	22
5.5	36	3.5	22.5
6	36.5	4	23
6.5	37	4.5	23.5
7	37.5	5	24
7.5	38	5.5	24.5
8	38.5	6	25
8.5	39	6.5	25.5
9	39.5	7	26
9.5	40	7.5	26.5
10	40.5	8	27
10.5	41	8.5	27.5
11	41.5	9	28

Kid's Shoes

- All of our children's shoes are wider than conventional children's shoes. If you normally wear a larger size to get a wider fit in conventional shoes, you may not have to do that with Xero Shoes.
- Natural materials (like leather or canvas) may stretch during initial wear.
- If you think of your foot is a bit longer than the kids size 4, you can consider ordering the narrower but longer women's style. Just be sure to adjust the size by 1.5 (for example a kid's size 4 is the same as a women's 5.5. A half-size larger than the kid's size 4 would be the women's size 6).
- People like different types of fit – some like their toes near the end, others like 1/4"-1/2" of extra space.
