

ULTRABOOST LIGHT

Light boost is our main innovation update. For the design direction we focus on how this new technology can resonate with the properties of bubbles, bloated objects and boat-shaped geometries.

FIT - UPPER

Primeknit+forge 2.0: Forged ribs lock in the longitude and flex in the width to allow the foot expand while running

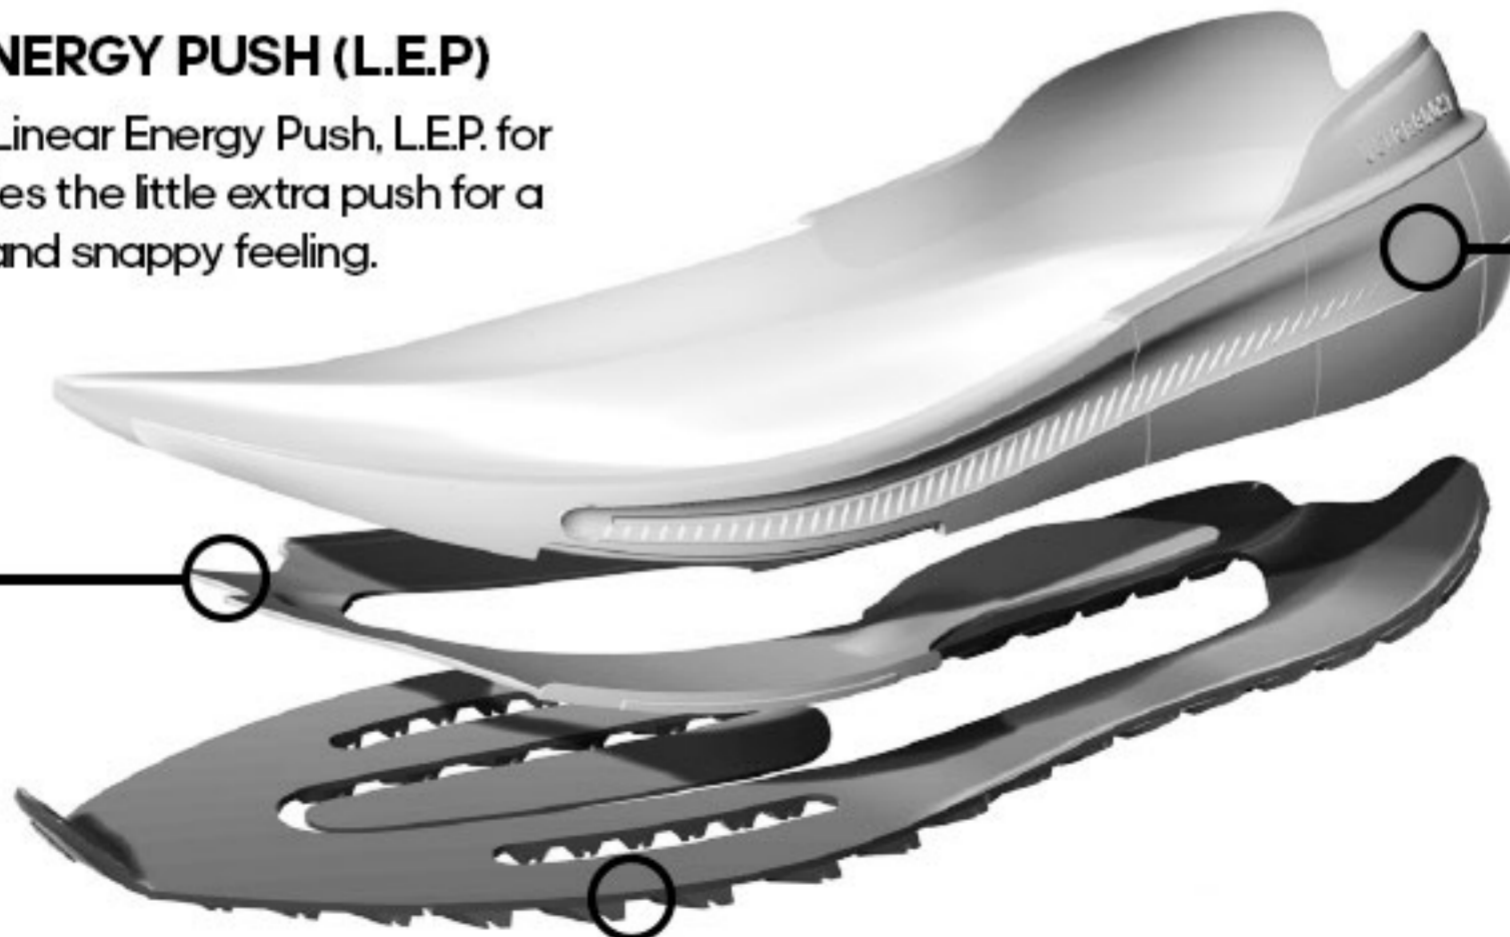

LIGHT BOOST

adidas' lightest boost with even more energy return making the Ultraboost Light more than 10% lighter.

LINEAR ENERGY PUSH (L.E.P)

The adidas Linear Energy Push, L.E.P. for short, provides the little extra push for a responsive and snappy feeling.

CONTINENTAL WINTERGRIP OUTSOLE

Continental WinterGrip outsole for superior traction in slushy and wet conditions.
