EASY ENTRY SYSTEM

A simple and winning mix : the powerful RT 2.0 heel part has been combined with a classic racing toe part more lightweight and simple, meeting perfectly in the needs of any "uphill addicted" skier. Easy step-in, even with holder and worn boots. Kevlar core leash SBC02 included.

32

- 1 | Easy Entry System: New toe geometry that optimizes the boot step-in, which results extremely reactive and powerful.
- 2 | Monolink Technology 1.0: One of the toe arms does not present springs, and provides a higher locking stiffness in addition to a lower weight.
- 3 | New Lever Design : the new front lever design provides a more comfortable activation of the same, adding a seat for the pole tip stabilization during the front release.
- 4 | The SRA CRAMPONS SLOT is included with the binding.
- 5 | The toe lever presents a wider leash hooking hollow for a simpler insertion of the same.
- 6 | Integrated heel flap with raiser provides 3 different walking modes: FLAT MODE, +36 mm and +50 mm.
- 7 | The Lateral release (Mz) system provides a 5 to 10 adjustment range.
- 8 | The Vertical release (My) system provides a 5 to 10 adjustment range.
- 9 | CAM RELEASE SYSTEM: stabilizes the heel pins and provides the typical torsional stiffness of the ATK bindings.
