EASY ENTRY SYSTEM

When it comes to races, it's not only a matter of extreme lightweight: many factors are involved in the skier's gear choice. SL LOGIC covers a new field of needs of racers, speed tourers, extreme skiers, thank's to its easy handling, solidity and lightweight!

- 1 | Easy Entry System : New toe geometry that optimizes the boot step-in, which results extremely reactive and powerful.
- 2 | Monolink Technology 1.0 : One of the toe arms does not present springs, and provides an higher locking stiffness in addition to a lower weight.
- 3-4 | This binding is sold in 4 different versions of fixed Vertical (My) and Side (Mz) release values; while purchasing, the customer can choose in between fixed release values 4, 6, 8 and 10.
- 5 | A simple, race-style, heel flap provides 2 walking modes: FLAT MODE, +37 mm.
- 6 | A new lever geometry provides and easier handling of the locking operations such as a stoe opening with poles, thanks to a wider pole tip seat.
- 7 | The toe lever presents a wider leash hooking hollow for a simpler insertion of the same.
- 8 | The toe fits with the SRA optional crampons slot.
