

AutoSock keeps your family or fleet moving safely in snowy weather.

CERTIFIED

AutoSock is the only textile chain alternative certified according to TÜV SÜD standards. AutoSock fulfills **PPP 53219:2000** for cars and **PPP 53283:2006** for trucks. AutoSock is also certified according to Austrian Standard ÖNORM V5121.

RESEARCHED

AutoSock pioneered the textile traction device and is the only alternative with over 15 years of research and development - including continuous testing and optimization. There are no comparable products with similarly scientific backgrounds.

COLLABORATED AND APPROVED

AutoSock has been developed together with leading automotive manufacturers, textile experts and yarn producer. As a result, AutoSock has earned the approval of Volkswagen, MINI, Volvo, Jaguar Land Rover, Nissan and many more. AutoSock is approved as a legal alternative to snow chains by road authorities in Northern America and several European countries.

PATENTED

AutoSock is protected by patents in all key markets. The patents cover all major functions, such as the self-centering ability of AutoSock when driving, as well as constructional details
