

Christiaan Bradley started in the Surfboard Industry on the Gold Coast in Australia sanding boards and earning his credibility. Eventually after becoming the «master sander» he decided it was time for "The European Vacation" where he met Stephen Bell and landed the prime position of becoming the Channel Islands/Al Merrick ghost shaper for Europe. This put him in contact with the CI team and the greatest man to ever stand on a board, Kelly Slater. The experience gained propelled him to another startosphere and it was never going to be enough ghost shaping for anyone even Al Merrick or Simon Anderson his other mentor. The Bradley Label was born and it has never looked back. World Title Surfer are continually in demand for another Bradley to add to their quiver. Performance is his niche but creativity is his credo. Christiaan Bradley has in the last decade turned himself into one of the finest performance surfboard shapers in the world.
