## WEATHER CONDITIONS

COLD COOL WARM HOT

## IDEAL FOR

- People looking for a comfortable, technical and seamless balaclava to wear under a helmet, protect the face from the wind and provide extra warmth for the neck when doing winter sports like skiing, snowboarding and MTB.

## FEATURES

- A technical balaclava that combines several fabrics to offer complete protection and superior warmth.
- A fleece layer to protect the neck from the cold when you unzip your jacket.
- Windstopper® fabric with a soft fleece lining that covers the face to protect it from the wind.
- A Thermo Fastwick fabric on the upper section to keep warm and dry.
- Ergonomic balaclava to fit your face and goggles, perfect for wearing under a helmet.
- Comfort seams made with Ultrasonic and Bonding technologies, which use heat to fuse fabrics for clean garment finishes that provide an optimal fit and prevent skin irritations.
- Small laser perforations around the ear to aid hearing.
- Laser-cut hole over the nose and small laser perforations around the mouth for easy breathing that wicks away moisture and reduces goggle fog.
- Available in three sizes: S/M (53-55 cm), M/L (56-58 cm) and L/XL (59-62 cm).
- 96% Polyester, 4% Elastane.
