IDEAL FOR

• People looking for a stylish hoodie for staying comfortable and protecting the head from the cold during winter sports like freeskiiing, snowboarding and skiing.

FEATURES

- Hoodie made of polar fleece sewn on a double-layer microfiber tubular that protects the neck and traps an inner layer of air for extra warmth with a single microfiber layer that covers the mouth and nose.
- Adjustable drawstring through the hood.
- Some designs have a bigger hood that can cover helmets.
- Offers excellent breathability and moisture control.
- Polygiene® treatment applied only to the microfiber piece keeps the fabric cleaner for longer, prevents the growth of bacteria and stops odours.
- 100% Polyester.
