

## MOISTURE MANAGEMENT

The unique ThermoNet® fiber encourages the passage of moisture vapor to keep you from feeling cold or clammy. During extremely cold weather conditions, its fast-drying capacity and its ability to move sweat away from the body prevent the fabric from freezing and keeps your body temperature steady.

## COMFORT

Get uncompromised freedom of movement for any outdoor sport. The seamless knitting technique increases the coziness of this unique products. The ThermoNet® Multifunctional Headwear keeps the good known versatility and comfort of the iconic Original Multifunctional Headwear.

## RECYCLED

Nature is the playground and the place to be to all BUFF® lovers, and we want to take care of it. Our commitment to conserving natural resources applies also the products we develop, that is why the Primaloft® yarn we use to knit ThermoNet® fabric has a 70% of the fibers created out of recycled PET bottles. Because we care.
