

For Women

Limited Edition

NEW

Christie Wellington
3x World Champion

Beauty addicts will love training with the new Miss **COMPRESSPORT** compression calf sleeves - For Women's Sport Performance. Be pretty in pink to run, pedal, walk or even recover after training, a long-haul flight or long car trips.

Miss **COMPRESSPORT** follows the **R2** model with its many advantages and virtues. This includes the detox effect which reduces lactic acid production.

Make the most of the anti-fatigue effect designed to absorb shocks and vibrations to muscles. This ensures better performance in the short and long term as well as improved resistance to effort.

The special woven fibre of the Miss **COMPRESSPORT** calf sleeve enhances massage and optimises comfort to the calf.

Miss **COMPRESSPORT** calf sleeve is also extremely lightweight whether wet or dry as it does not retain water. You can even swim with it.

Now you know all about the new running queens, available in three sizes, you are bound to find new running girlfriends!

Also discover **RECOVERY** after effort with **COMPRESSPORT®**. Our guarantee, we certify to reimburse you, if you are not satisfied.

ADVANTAGES +

The Compressport R2 is your "Recovery" partner after intense effort, allowing you to be fresh for your next training session. Virtually indestructible, your Compressport R2 can be stretched several times its size and recover its original shape. Compressport R2 resists both chlorine, or acidity due to perspiration and salt. Use your Compressport R2 "incognito" with long pants or "fashion" as the "pros" in shorts and thongs. Being footless your Compressport R2 is more hygienic (no need to wash each session), which prolongs its life.
