

F (F-LIKE FULL LEG)

NEW

MASSAGING FIBRE

Every movement initiates a micro massage ensuring well being and lightness. Patented fibre.

HIGH PRECISION TECHNOLOGY

Special circular weave ensuring excellent pressure distribution over every cm² of the leg.

ULTRALIGHT

Wet or dry **COMPRESSPORT** remains probably the lightest (does not retain water).

ULTRA CONFORT

Woven fibres renowned for their softness and comfort.

CYCLING

More force, more resistance during effort and outstanding during recovery, **FULL LEG** by **COMPRESSPORT** is a must-have for road and mountain bike cyclists.

EVACUATION

Optimum inside and out heat exchange with optimised perspiration evacuation.

PAIN KILLING

Ideal for eliminating muscle and joint pain.

RECOVERY

Accelerates venous return preventing blood from stagnating in calves, ischia and quadriceps therefore making your legs feel ultra light.

RUNNING

R2 + FORQUAD efficiency + optimisation of the position of the knees when track, road or trail running. **FULL LEG** is also the ideal heat regulator between seasons.

QUALITY GUARANTEE

COMPRESSPORT® guarantees the exchange of your product. (see conditions on our website <http://www.compressport.com>)
