

# Free Belt Pro

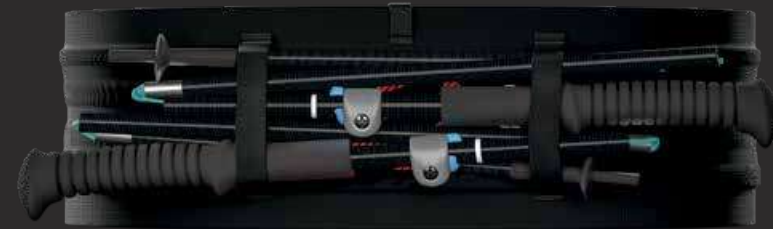

**Ergonomic & Functional:** go running, cycling, climbing and carry just the essentials without bouncing.

**Lightweight:** the Free Belt Pro is a real alternative to the backpack.

**Convenient and secure pole holding system:** The poles can be carried easily without bouncing and can be attached and removed extremely quickly.”

ANTI-VIBRATION DESIGN

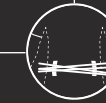

**SEAMLESS**  
For optimum comfort, the microfibre is 100% seamless, lightweight and very soft.

**VENTILATION STRIPE DESIGN**  
For more ventilation and more comfort, the weaving is made more specific and airy so that the whole foot gets ventilated from the toes to the calf. Feet remain light, dry and cool.

**QUICK RELEASE RACE BIB HOLDER**

**POLES LOOP**  
The poles can be carried easily without bouncing and can be attached and removed extremely quickly.

**ULTRALIGHT**  
Your COMPRESSPORT® do not retain water and will remain featherlight in all conditions.

**PICK POCKETS**  
Properly structured for better organization, they are easy to reach and have been designed to prevent any bouncing. They also prevent unnecessary twisting and help you conserve energy to stay focused on your stride.

**“Its wider shape and the single compartment provide you with storage of your accessories such as gels, phone, flask, wallet, etc.”**
