

Trail Running Postural Short Sleeve Top & Ultra Tank Top Woman

Breathability: Targeted layout of ventilation mesh make it more breathable and help wick humidity whatever the outside temperature, the level and duration of your effort.

Lightweight ergonomic: it offers the feeling of running freely while being supported.

Thermoregulation: Its unique weaving favors the circulation of the air and allows a perfect balance between the outside and the interior.

“Super lightweight, highly ventilated, and hydrophobic”

- 

3D THERMO ULTRALIGHT
A 3D knit creates a thermal mattress made of ventilation channels and air cushions. It prevents direct contact with the skin and controls temperature variations between surrounding air and the skin. Body temperature stays at its normal internal level, 36-37.5°, so that the organism functions correctly.
- 

ZIP PROTECTION & AUTO BLOCK
The zip protection avoids all chafing. The zip's auto block system does not swing while running.
- 

ULTRA VENTILATION MESH
Targeted layout of ventilation mesh make it more breathable and help wick humidity whatever the outside temperature, the level and duration of your effort.
- 

HEMLESS
Seamless and without elastic, there is no pressure on the muscle.
- 

SEAMLESS
For optimum comfort, the microfibre is 100% seamless, lightweight and very soft.
- 

D-STRESS
The neck is slightly raised and elastic free for maximum protection and comfort for the neck area.
- 

ULTRALIGHT
Wet or dry, COMPRESSION® probably remains the most lightweight (does not retain water).

- 

SPIN CONTROL
This light compression area is directly woven into the fabric to ensure you have correct body positioning during long lasting effort and that your shoulders stay aligned. This will boost breathing capacity and improve oxygenation during effort and after effort will facilitate quick recovery.
- 

THERMO-REGULATION
Its unique weaving favors the circulation of the air and allows a perfect balance between the outside and the interior. Thus the body remains at the same temperature without rising or falling sudden. A real protection in winter against cold and during the hot temperatures it is forgotten...
- 

HYDROPHOBIC
The water-repellent fibre wicks moisture away and evacuates sweat without absorbing it, even when excessive. No more uncomfortable heavy, damp clothing that irritates and doesn't dry.
- 

TWO LEVELS POCKETS
The two levels pockets system allows a better organisation of the equipment on 2 levels for easy and rapid access.
- 

ERGO-FIT
Perfect fit, maximising efficiency and comfort (no chafing).

SEAMLESS

For optimum comfort, the microfibre is 100% seamless, lightweight and very soft.

D-STRESS

The neck is slightly raised and elastic free for maximum protection and comfort for the neck area.

ULTRALIGHT

Wet or dry, COMPRESSPORT® probably remains the most lightweight (does not retain water).

3D THERMO ULTRALIGHT

A 3D knit creates a thermal mattress made of ventilation channels and air cushions. It prevents direct contact with the skin and controls temperature variations between surrounding air and the skin. Body temperature stays at its normal internal level, 36-37.5°, so that the organism functions correctly.

ZIP PROTECTION & AUTO BLOCK

The zip protection avoids all chafing. The zip's auto block system does not swing while running.

ULTRA VENTILATION MESH

Targeted layout of ventilation mesh make it more breathable and help wick humidity whatever the outside temperature, the level and duration of your effort.

HEMLESS

Seamless and without elastic, there is no pressure on the muscle.

Trail Running Postural Short Sleeve Top & Tank Top Man
