

DMD is the market leader in the Vintage helmet business because it found the way to improve the original 70's shell design matching it with all the modern safety standards.

The focus of the company was to change the traditional shape of the helmet into a retro version in order to make the helmet a fashion and stylish accessory with an original design.

The company worked very hard on the dimension of the helmet in order to get the smallest homologated shell of its category with a perfect fit and maximum compactness.

DMD Vintage helmet is not only smart and distinctive but also designed for maximum head comfort and protection.

DMD brand is a synonymous of high quality, safety and comfort.

vintage

collection

The Vintage Helmet is a remake of the famous and iconic 70's shell and it is the smallest homologated helmet of its category.

The shell is made in fiberglass and it has a very high comfort thanks to its fabulous inner lining.

The focus of the company was to change the traditional helmet shape into a retro version in order to make the helmet a fashion and stylish accessory with an original design.
