ONTARIO

Sacchiletto completamente apribili, accoppiabili e trasformabili in coperta, imbottitura "Fibra H4". Rispetto ad una imbottitura in poliestere tradizionale, l'elevata coibenza di questa fibra consente di ridurre il peso dell'imbottitura di circa il 40%.

Sleeping bags that open out fully and combine to be used as blankets. "H4 fibre" filling which, compared to a traditional polyester filling, offers excellent insulating performance while reducing filling weight by approximately 40%.
