

Unit Dimensions, WxHxD: Flush-mounted: 7.16 x 3.86 x 6.42" (18.2 x 9.8 x 16.3 cm); Bracket-mounted: 7.56 x 4.65 x 6.42" (19.2 x 11.8 x 16.3 cm)
Waterproof: yes (IPX7)
Temperature Range: from 14°F to 122°F (from -10°C to 50°C)
Compass-safe Distance: 20 in. (500 mm)
Speaker Microphone Audio Power: 94 dBA
Digital Selective Calling: Class D
Frequency Bands: All U.S., Canada, and international marine channels; 10 NOAA weather channels
Operating Voltage: 12.0 Vdc
Current Drain: Standby: 350 mA; Receive: 600 mA; Transmit: 6.0 A at HI power (25 W); 2.0 A at LO power (1 W)
Hailer Output Power: 20 W at 4 $\Omega$
Hailer and Foghorn Output: 20 W with automatic and manual foghorn signals and adjustable, base fog frequencies
Transmitter Output (at 13.6 Vdc): 25 W (HI); 1 W (LO)
Frequency Range: 156.050 MHz to 163.275 MHz (including WX channels)
