

SEAMLESS INTEGRATION

HELMETS/GOGGLES

K2 Helmets and goggles are designed to fit perfectly together. Made with the best technology, fit and ventilation options on the market. Focused on achieving total compatibility, we also targeted design and customizable amenities. Style, technology, and safety finally meet. Experience Seamless Integration.

DESIGN

Seamlessly Integrated, K2 helmet and goggles are low profile and designed to work and look great together.

PROTECTION

All our helmets meet internationally accepted standards for snow sports. Various models are Bike Certified for on and off the mountain. All lenses are Grade 1 certified with 100% UVA/B/C protection.

VENTILATION

With multiple ventilation solutions, K2 helmets are designed to keep you cool when the sun is shining, and warm when its bitter cold.

COMFORT

Multiple liners, unparalleled fit systems, with some of the best face foam varieties in the industry give K2 helmets and goggles a custom comfortable feel on your face and head.

RETENTION

The easy to use goggle straps gives your goggles a quick, secure hold. Pair them with our goggle straps featuring triple lines of silicon rubber on the inside of the strap, and you're set for the day.

CUSTOMIZATION

Removable ear-pads, liners, EZ swap attachment lenses, removable outriggers, as well as multiple color way combos and designs to fit your style.

SEAMLESS INTEGRATION

CUSTOMIZATION TWO STYLES, ONE GOGGLE/HELMET

Style comes down to personal preference and our helmets and goggles are designed with customization in mind. Our goggles can be worn both over and under the helmet, with removable outriggers for the best fit. Our helmets come with fit systems and removable liners to accommodate wearing a beanie and goggles under the helmet, or for bike certified use in the off season.

<p>CONSTRUCTION</p>	     	<ul style="list-style-type: none"> • Hybrid- This unique construction features the best of both In-Mold and Hard-Shell constructions. The primary In-Mold construction makes the helmet incredibly light, while the secondary Hard-Shell upper allows for more advanced Active Matrix Venting and increased durability. • In-Mold- In-Mold is the premium construction for ultra-lightweight performance and is characterized by an EPS liner that is molded directly to a lightweight poly-carbonate (PC) shell. The result is a construction so light you'll forget it's even there. • Hard Shell- Hard-Shell helmets are built to last and will look good no matter how many trips they make in and out of your gear bag. Hard-Shell helmets protect you from impact thanks to lightweight EPS foam bonded to an injection molded and durable ABS shell. • Dual Active- Perfect combination of user/switch regulated Active Matrix Venting and integrated Passive Channel Venting. • Passive Channel Venting- Channels on the inside surface of the EPS direct air-flow between your head and the helmet, removing moisture and excess heat for all day comfort. • Active Matrix- Climate control at the flip of a switch, Active Matrix Venting allows you to regulate the airflow of the helmet vent system with the push of a finger.
<p>LINER SYSTEMS</p>	  	<ul style="list-style-type: none"> • Convertible Full Wrap Liner- Same coverage as a full-wrap but easily pops out, leaving the fit system and minimal padding to accommodate warm days and wearing a thin beanie under the helmet. • Full Wrap Liner- A comfortable, washable, full-coverage, breathable liner design that wicks away moisture to prevent overheating and seamlessly integrates fit and audio systems. • Tech Form Liner- Compression formed, precise fit liner with removable ear pad and neck roll for a convertible customized fit.
<p>FIT SYSTEMS</p>	  	 <ul style="list-style-type: none"> • Boa®- All the benefits of the 360 K2dialed Fit System with the precision and quality that you have come to expect from Boa® Technologies. • 360 K2Dialed- The 360 K2Dialed Fit System is an evolution of the K2dialed Fit System, delivering unparalleled comfort around your entire head. An intricate web design results in 360 degrees of even pressure distribution for a secure and snug fit that you customize with the twist of a dial. • K2Dialed- The K2Dialed Fit System creates a custom-fitting helmet no matter what your head shape. An ergonomically inspired three-point adjustable interface maximizes fit and customization with the twist of a dial. This allows for the ultimate convenience of being able to make fit adjustments on the fly.
<p>AUDIO TECH</p>	 	 <ul style="list-style-type: none"> • Bluetooth Compatible- All K2 Helmets now are compatible with Outdoor Tech® Blue Tooth audio systems, as well as other after-market audio options. • Baseline Audio systems- Pre-installed audio kit with a low-profile speaker that easily connects to your mobile device without hindering the fit or comfort. The on-cord controller is designed for on-the-go usability at your fingertips for talk or tunes.
<p>GENERAL TECH</p>	    	 <ul style="list-style-type: none"> • Bike Certified- Certified by North American bicycle helmet safety standard and European bicycle and skateboard helmet safety standard. • Magna Snap- Magnetic retention clip that easily flips up and over the goggle strap for a secure hold that you don't have to fumble for. • Removable Ear Pads- Ability to easily remove ear pads for reduced bulk while retaining the fit system. • Removable Goggle and Headlamp Clips- Customized fit for tool-free, on-the-go versatility. • PowFly- Waterproof breathable cover for Route for added protection against the elements of winter weather.
