

# GOGGLE TECHNOLOGY

The technology behind K2's goggle collection delivers topline performance with superior lens and frame designs. The perfect integration between face, helmet and goggles is achieved through different face foam densities, frame designs and adjustability for ultimate comfort, fit, helmet compatibility and performance. Introducing fresh designs in the 2014/15 collection, K2 welcomes large format lens with semi-rimless frames for enhanced peripheral views with modern style.

## HELMET COMPATIBILITY

### HELMET-COMPATIBLE DESIGNS ENSURE SEAMLESS HELMET/GOGGLE INTERACTION

- 1 K2 helmet-driven topline design for a seamless fit
- 2 Triple silicone-backed straps that keep your goggles firmly in place
- 3 Custom engineered strap brackets that optimize goggle/helmet fit

## MEN'S FRAMES

- 1 K2 helmet-driven topline design for unrivaled helmet compatibility and comfort.
- 2 Custom-engineered strap bracket.
- 3 Minimalist external bridge structure for maximum lower field of vision.
- 4 Slotted nose bridge design for true fit and comfort.

## WOMEN'S FRAMES

- 1 K2 helmet-driven topline design for ultimate helmet compatibility and comfort.
- 2 Softened frame design for visual balance.
- 3 Rounded ocular-based frame design for maximum lateral field of vision.
- 4 Slotted nose bridge design for optimal comfort and fit
- 5 Elongated cheek-bone design.

**DUAL DENSITY + ULTRAPLUSH MICRO FLEECE**  
Two densities of foam provide both comfort and stability, while K2's UltraPlush Micro Fleece fabric delivers the highest level of coziness for your cheeks.

**DUAL DENSITY + MICRO FLEECE**  
Two densities of foam provide both comfort and stability that is topped off with comfy Micro Fleece fabric.

**SINGLE DENSITY + MICRO FLEECE**  
Premium grade compression foam with a fleece laminate keeps snow out and your goggles comfortably seated on your face.

# LENS TECHNOLOGY

All K2 lenses are double layer spherical hard-coated lenses, with industry leading anti-fog treatments, 100% UVA/B/C protection, and Grade 1 certified optics. K2 Goggles use high performance lenses for enhanced vision and style. Featuring Lenses by ZEISS and Ri-Pel coatings, K2 Goggles use trusted technology for maximum performance and field of vision in any condition.

Ri-Pel® is a hydrophobic coating that is applied to each one of our ZEISS lens offerings. It is designed to minimize scratching and smudging, expel residue from water, sweat, and fingerprints as well as enhance overall visibility. Ri-Pel offers the necessary lens protection to keep you on the hill all day long in any condition.

## LENSES BY ZEISS

The creators of some of the world's most advanced optics bring their incredible quality and experience to the optics of K2 goggles. Each lens is made of a tough polycarbonate and treated with a hard coating for superior performance and extreme scratch resistance.

**Sonar™ by ZEISS®** A new lens tint in the Tripic mirror category designed specifically to offer maximum contrast and visibility across the largest possible range of light conditions. If you want one lens that works great in nearly all light conditions, look no further than our SONAR Lenses by ZEISS.
