**art. 88Q 000608 – SYTRON WOMAN**

**Sytron** is the skiboot in Grilamid® reinforced in carbon designed for the evolved ski mountaineer looking for lightweight and performance for quick **toours** and training. It meets all the requirements of the demanding user thanks to technologies and patents conceived for the race world, such as the “race-ready”, single lever, closure system, with the **exclusive CavoBike Pro Lever** mechanism that allows the transition from ski to walk mode in one quick motion, totally freeing the cuff thanks to an innovative solution. The lower micrometric Spider Buckle Evo closure system and the upper lid with the threefold adjustment allows for maximum customization of the fit and allows you to release power when skiing downhill. Sytron is compatible with TECH bindings: it uses the revolutionary, patented S4 Insert™ front plate, thanks to which the centering and the entry of the binding have never been easier and faster. With 75 degrees of inclination and the protective, highly durably La Sportiva Grip Guard™: sole, Sytron is a concentration of technology to meet the needs of the modern ski mountaineer.

1. **G-Shell™**: Grilamid® shell (length 287 mm, size 27).
2. **CRP Cuff™** Carbon Reinforced cuff (75° range of motion) – only on Man version; **Fiber Glass Reinforced Cuff – Only on WOMAN**
3. **Walking Profile**: Rocker outsole, compatible with all types of bindings. Protective gaiter with abrasion resistant plastic tongue.
4. **Spider Buckle Evo**: closure system that allows for the perfect distribution of tension on all the surface of the tongue with one quick move.
5. **Cuff Wings**: Overlap cuff in PU with custom fit closure system
6. Single-Throw Buckle with even lighter weight, one-motion transition ski/walk mode
7. **CavoBike Lever PRO™**: patented lever mechanism controls ski/walk mode, allows for total releae of the cuff guaranteeing maximum freedom of movement even with crampons.  
**Forward Lean**: 4 position adjustable forward lean (14°, 16°, 18°, 20°)
8. **S4 Insert™**: new patented insert designed in collaboration with *Skitrab*: makes centering the binding easier.
9. **Inner sole** Removable with insulation PU inserts
10. Outsole **La Sportiva Grip Guard™** with abrasion resistant inserts at heel and toe, exceptionally long lasting
11. **Sytron Liner**: heat mouldable bootie with EZ Flex and over-lap closure system

**Colour**: Ocean/Sulphur (man); White/Emerald (woman)

**Shell**: Grilamid®

**Cuff**: Man: Carbon Reinforced Polymer (Grilamid®/Carbon) ; **Woman: Fiber Glass Reinforced Cuff**

**Inner bootie**: Sytron Liner

**Range of motion**: 75° (35° back/40° front)

**Buckles**: 2

**Forward Lean**: 4 positions (14°, 16°, 18°, 20°)

**Weight**: **XXX**

**Size**: Man: 23.5 - 30 (including half sizes); Woman: 23-26,5 (including half sizes)

**Compatible with bindings:** TECH

**Outsole:** **La Sportiva Grip Guard™**

**LOGOs:** Made in Italy, RACE/TOUR (ball to be positioned exactly over the blue of TOUR)

#### **REDAZIONALE:**

**Sytron** is the skiboot in Grilamid® reinforced in carbon designed for the evolved, female ski mountaineer looking for lightweight and performance for quick **tours** and training. It meets all the requirements of the demanding female user thanks to technologies and patents conceived for the race world, such as the “race-ready”, single lever, closure system, with the **exclusive CavoBike Pro Lever** mechanism that allows the transition from ski to walk mode in one quick motion, totally freeing the cuff thanks to an innovative solution. The aesthetics and the particular type of fit have been specifically designed for the feet of today’s modern female ski-tourers and racers Offering 75° range of motion, a long lasting **La Sportiva Grip Guard™** protective sole, and a removable insole for maximum comfort. The lower micrometric Spider Buckle Evo closure system and the upper lid with the threefold adjustment allows for maximum customization of the fit and allows you to release power when skiing downhill. Sytron is compatible with TECH bindings: it uses the revolutionary, patented S4 Insert™ front plate, thanks to which the centering and the entry of the binding have never been easier and faster. With 75 degrees of inclination and the protective, highly durably La Sportiva Grip Guard™: sole, Sytron is a concentration of technology to meet the needs of the modern ski mountaineer.
