## **19401 BIKE JACKET „PRIME“ GTX ACTIVE**

**“The three-layer jacket made of light Gore Tex Active material is absolutely waterproof and also warm enough to protect you very well on colder days. Even long and cold continuous rain is no problem with this jacket. Despite a waterproof front zipper, the Austrians manage to keep the weight and pack volume very low so that the jacket fits into a jersey pocket if necessary.” the testers of RennRad state.**

**The LÖFFLER jacket scores with full points. 10/2016 RennRad**
