Computer functions Smart Apnea

- Time format
- Surface time
- Temperature
- Length of dive
- Programmable alarms:
 - Maximum dive time
 - Maximum logged depth
 - Maximum surface time
 - Depth intervals
- Sequential dive number
- Instantaneous depth
- Maximum logged depth
- Longest logged dive during the session
- Deepest logged depth during the session
- Longest dive recorded
- Dive session date and time
- Sequential session number
- Number of dives in the session
- Average session depth
- Maximum depth recorded
- Coldest temperature recorded
- Dive time
- Total dive time during the session
- Profile of sample dive by second
- Average freedive session time
- Average surface session time
- Sequential dive number
- Temperature
