

DYNA WAVE NEOPRENE

Patented, high density neoprene by Moby's. Compression is accomplished during the manufacturing process as opposed to physically crushing. Unique is its ability to remain unchanged under continuous compression/expansion stresses. Dyna Wave neoprene is 5% denser, retains flexibility, and provides insulation equivalent to 7 mm.

ADJUSTABLE SUSPENDERS

Help you get a proper fit in your suit during your dive. In between dives you can comfortably remove the torso portion leaving your body free to set up your equipment, and relax without having to remove your suit entirely until you're ready to dive.

SI-TECH SHOULDER VALVE

Si-Tech valve with the ability to customize the sensitivity of your air release during your dive. High performance and completely dry. Precision accuracy for perfect buoyancy. Advanced technology through basic physics.

NEOPRENE COLLAR AND WRISTS

Not available on Polarfit. Good sealing along with insulating properties. Neoprene Collar and Wrists are more durable with easy maintenance, eliminating the need for talc powder.

FRONT ZIPPERS

The design of a Front Zip Closure allows for self entry and greater freedom of movement by not having a stiff zipper across your back. An external zipper flap further protects this crucial portion of your suit.

CAP SYSTEM

Bio-Ceramic material is infused with inorganic and oxidized metals which emit FIR rays to warm the body surface. Aluminum compound laminated to durable Nylon to create the airtight integrity of the shell. The use of aluminum assists in reducing mildew and odors caused by biological growth while stored.

360° SWIVELING INFLATOR VALVE

Si-Tech valve allowing complete freedom of LP hose placement. Either from the left or right position for easy customization. Si-Tech valves have a renowned reputation of performance under extreme conditions. An excellent inflator button gives you precise control of air.

LATEX COLLAR AND WRISTS

Standard on Polarfit (on Icefit this feature is not available in all countries). Excellent sealing with customizable cutting rings. Latex seals provide an extremely close, comfortable water seal. Utilize talc powder for easy donning, and never lose the shape due to expansion stresses.

WEBTEX

Intense research and development by Moby's to find materials that help increase warmth has led to the development of Webtex. This material, a type of plush, not only retains heat, but actually conducts more heat during your dive by using your body's natural friction inside the suit.

VULCANIZED BOOTS

Durable, reinforced, vulcanized rubber lined with neoprene for added comfort, and featuring a 4mm anti-slip sole. Rear heel notch keeps your fin strap from slipping, allows you to step on the notch keeping the boot in place while removing your foot during doffing.

UNDERSUITS

COMFORT SHELL

code: 412095
size: XXS-XS-S-M-L-XL-XXL

Elastic loops stitched both on ankles and wrists keep undergarment in place while donning the drysuit. Elastic waistband minimizes bulk and gives a more tapered look. The front zip has a double slider so it can be opened at both ends.

COMFORT SOFT

code: 412094
size: XXS-XS-S-M-L-XL-XXL

Stirrups and thumbs loops to keep garment in place when putting the suit on or taking off. Mesh opening to avoid air trapping in the underwater buoyancy operation.

COMFORT SKIN

code: 412093
size: XXS-XS-S-M-L-XL-XXL

Thin, elastic material provides the most mobility. Internal metal coating helps retain heat while still allowing breathability.

COMFORT DRYBOOT 5-3

code: 412620
sizes: 5-6-7-8-9-10-11-12

Reinforced on the toe and heel. Velcro strap on the hankle together with the zipper provide double safety closure.

COMFORT DRYGLOVES 5-3

code: 412750
sizes: XXS-XS-S-M-L-XL

Made in double-lined neoprene with different thickness sections, preformed cut, and Glide Skin outside on the wrist area to ensure a waterproof seal.

COMFORT HOOD 3

code: 412810
sizes: XS-S-M-L-XL

3mm preformed hood in super elastic neoprene. Glide Skin around the face and in the neck. Ventilation holes at the top of the head.

COMFORT HOOD 5

code: 412811
sizes: XS-S-M-L-XL

5mm Preformed hood in super elastic neoprene. Glide Skin around the face and in the neck. Solar reflective panel for surface visibility.

COMFORT POUCH

code: 412900

Handy accessory pouch made of Small Diamond neoprene, a special strong and abrasion-resistant neoprene.
