

FUNBOARD

Designed for the weekend warrior. Paddles easily and catches waves early, gets you up and riding more often. The NSP Funboard is a classic mid-length Malibu, and our most popular shape ever.

**Rail** : Medium

**Bottom** : Single to Vee

**Ideal waves** : 1-6ft

**Level** : Beginner – Expert

SECURECELL

- Newly designed reinforced carbon tail patch helps tune the tail flex, mimicking the flex patterns of pro customs.
- A stunning combination of fantastic value, durability and performance, the Funboard is one of the most popular boards in the NSP range for progressing skills.
- Semi-rounded nose with low entry rocker design puts more volume up front to give more paddle power to catch waves early and easily.
- Domed deck profile allows a forgiving but sensitive rail feel while the rounded pintail is pulled in, adding control in bottom turns and cutbacks.
- Concave bottom creates a fast water transition through to the tail, providing balance and control in a wide range of conditions.

Constructed in NSP's high-performance Protech technology with a 36g molded SecureCell EPS core with custom wet lamination.

The new tint lamination process provides each board with it's own unique, artsy and custom-like finish. A visually appealing board!

The NSP Funboard is the clear "next-step" board for surfers looking to downsize, and an overall great board to have for all kinds of conditions.

#### Fins:

The new Protech Funboard models are available with NSP's new 3x FTU boxes (all compatible with Futures® Fins) and comes out of the box with 3 MFC-designed fins. Carry-over models available in our popular twin tab fin boxes.
