

**HOOLIGAN**

**Aggressive, high-performance longboards that break the rules with quick and dynamic carving, combined with traditional style for intermediate to advanced surfers.**

**Rail :** Full, tucked edge  
**Bottom :** Concave into V  
**Ideal waves :** 1-6ft  
**Level :** Beginner - Expert

- The Hooligan design incorporates the responsiveness of a narrow shortboard tail and rail profiles to create a longboard that carves unlimited lines and hits the lip.
- The advanced surfer will appreciate the loads of hollowed V under the feet allowing for quick rail-to-rail turns.
- Key design elements allow Hooligan riders a dynamic shortboard approach to carving, or change gears to classic nose riding and traditional longboard style.
- Use a small single fin for small surf, or add side bites and larger center fin for an increase in wave size and power.

**Fins:**

The CocoFlax Hooligan is available with either FCS II side fin box set-up or NSP's new FTU fin boxes (compatible with Futures® fins) and Surf 10 center fin box.

The NSP Hooligan is a Kym Thompson shape.

● Flax  
FCS II or FTU

● Tail Dip Blue  
FCS II or FTU

**SPECIAL FEATURES**

Fin boxes  
1 Surf 10 + 2 FCS II

Flax rails for durability

Fin Boxes
