Highlights

Particles & Viruses removal

Designed with a multi-stage active filtration system, which captures up to 99.97% of particles that passes through the filter as small as 0.3 microns – the size of most common airborne allergens, particles, bacteria and viruses. Removes aerosols including those which may contain respiratory viruses from the air which passes through the filter. It sanitizes the air by removing up to 99.9% of viruses from the air*, making sure you breathe clean air always.

Removes gases and odors

The active carbon layer enables to effectively absorb odors and TVOC including benzene, toluene etc. Makes sure you breathe healthy air always.

Intelligent auto purification

Intelligent auto purification mode, powered by professional grade sensor, automatically sense, and react to even slightest change in the air.

Air quality color indication

4-step color indication for real-time air quality ranging from blue (good) to red (poor), gives reassurance about the air quality in your home.

Quiet as whisper

In sleep mode, display lights are dimmed and the purifier operates in near silence for clean air while you sleep, as low as 35db(A)*. Perfect for using in bedroom or baby room.

Compact size

Compact size, easily fits in every place in your home. Suitable for a room size of 49 m².*

* Microbial Reduction Rate Test conducted at Airmid Health group Ltd. tested in a 28.5m³ test chamber contaminated with airborne influenza A(H1N1).

* An air purifier by itself does not protect against Covid-19, but can be part of plan to protect yourself and your family to help ventilation and having clean air (US Environmental Protection Agency).

* CADR is tested by a certified third party lab, according to GB/T18801-2015.

* Calculated according to NRCC-54013 standard using cigarette smoke CADR tested according to GB/T18801-2015.

* Philips Air Purifier traps 99.5% of particles as small as 0.003 microns that pass through the filter. From air that passes through the filter, tested for 1 pass efficiency at 5.33cm/s air flow, by the supplier's lab.

* The filter was tested with NaCl aerosol by iUTA
