

Polo Battery Guard

Battery monitoring with your smartphone. With the intAct Battery-Guard you can always keep an eye on your battery's charge level.

Details:

- Check the charge level of your battery quickly and easily via Bluetooth
- The current voltage is displayed as a value and in four colours – similar to a tachometer
- It is also possible to display more than one bike
- For up to 5 bikes at a glance (one Battery-Guard necessary per bike)
- Monitor 6, 12 and 24 volt on-board power supplies
- Free Apple or Android app
- Easy mounting on the battery using eyelets
- The transmitter itself is self-adhering and can be attached accordingly
- Power consumption only approx. 2 mW
- Simple operation and installation – see also the attached instruction manual
