Now you can quickly and easily remove your ear covers without messing with the fit system.

Perfect for hot spring days or days when you have quick weather changes.

Audio-ready pockets that fit most audio systems allow you to rock your own tunes. (Audio system not included)

NEW TECH

Pret's exclusive Vent Tuning Technology (VTT) is available in 3 versions:

## VTT3

Our highest performing ventilation system is adjustable from fully open, half open to fully closed. Directional front intake vents power the system that draws heat and moisture out of the helmet. These intake vents feed cool air into the proprietary labyrinth channels without direct contact to your head, the ultimate all-conditions system. Patent 8,256,032

## VTT2

A proprietary labyrinth system uses front intake vents feeding fresh air that won't directly contact your head, meaning no more "brain freeze." This unique system automatically adjusts to perform perfectly in conditions ranging from deep freeze to spring thaw.

## VTT1

A balanced combination of front intake vents and exhaust vents. VTT1 uses fresh air to extract heat and moisture for the perfect temperature. New adjustable vent flaps for variable conditions.

REPLACEABLE  
GOGGLE STRAP

RCS FIT SYSTEM

MATERIALS:  
X-Static, ecoSmart  
Recycled Fleece and  
Ultra Fleece fabrics

---

## CONSTRUCTION

Combining In-Mold technology with the most advanced materials creates the lightest weight and highest performing helmets on the market.

## FIT

The best inside shape and 5 shell sizes and 8 models guarantee the perfect fit for you.

## GOGGLES

Designed to seamlessly fit and perform with the best goggles on the market. The goggle strap is completely replaceable.

## STYLE

Low profile, both width and height wise. Crisp and clean lines.

## MATERIALS

Only the highest quality and performance fabrics are used throughout the line. X-Static, ecoSmart Recycled Fleece and Ultra Fleece fabrics provide ultimate performance.

---

Pret's RCS fit system. Designed from the ground up, the Ripcord System (RCS) is the perfect micro-adjustable, compact ergonomic fit system.

1

Simply pulling up on the adjustment dial and the exclusive Ripcord feature releases the system instantly.

2

One full turn gives you 4cm of micro-adjustment.

---

Next generation Fidlock SNAP Buckle.

Features automatic closure and 1-hand operation, even with your gloves on.
