ISOTEX STRETCH 10000

ISOTEX STRETCH 15000

ISOTEX STRETCH 20000

Isotex Stretch 5000 - 20000.

Isotex Stretch fabrics are waterproof, breathable and windproof; the hydrophilic breathable system allows inner moisture vapour to escape. Designed to keep you dry and comfortable outdoors whilst the active fit stretch yarns give greater comfort and movement.

ISOTEX 5000

ISOTEX 8000

ISOTEX 10000

ISOTEX 15000

Isotex 5000 - 15000.

Isotex 5000 - 15000 fabrics are waterproof, breathable and windproof; the hydrophilic breathable system allows inner moisture vapour to escape. Designed to keep you dry and comfortable outdoors.

ISOTEX

ISOLITE 5000

ISOLITE

HYDRAFORT

ISOVIZ

Isotex.

With a waterproof hydrostatic head of 3000mm, the waterproof performance keeps the water out whilst the hydrophilic breathability system allows inner moisture vapour to escape.

Isolite 5000 and Isolite.

A waterproof and breathable lightweight fabric range designed to keep you dry and comfortable outdoors. Isolite 5000 has a hydrostatic head of 5000mm.

Hydrafort.

Hydrafort fabric is both waterproof and windproof, providing reliable protection from the elements.

Isoviz.

Suitable for high energy activity, the Isoviz fabric has good wicking performance, is quick drying and has a highly reflective print which provides enhanced visibility.

ISOICE

ISOVAPO

ISOVENT

ISOFLEX

Isoice.

Our next generation fabric technology Isoice dissolves heat, lowering your skin's surface temperature and creating a cooling effect.

Isovapo.

Isovapo is our most lightweight and breathable fabric, ideal for high intensity activities.

Isovent.

Isovent fabric is ideal for high energy activity with quick drying and highly breathable properties.

Isoflex.

Isoflex fabric is ideal for high energy outdoor activities with a quick dry, water repellent finish and active fit stretch yarns for greater comfort and movement.

WATERPROOF
BREATHABLE

Every stitch and fibre uses the latest technology to give you the best performance and comfort - waterproof, breathable, moisture wicking and active stretch. In a head to head against the elements, Regatta's all-weather gear wins hands down, every time.

Regatta's technical insulation range offers performance and warmth through a variety of garment fills. From protection in very low temperatures to gear for active cold weather exploring, we provide the best technology for your adventures.

ATOMLIGHT

Atomlight.

Soft, compressible and super lightweight insulation down to temperatures of -25°C. Water repellent, quick drying and highly breathable for extra comfort.

SPHERICAL FILL

Spherical Fill.

Reassuringly dense hand feel for guaranteed cold weather warmth. The polyester micro spheres trap air to insulate down to temperatures of -20°C whilst also being water repellent and quick drying.

DOWN FILL

Down Fill.

Down is a lightweight superior insulation offering excellent warmth to weight ratio.

HYBRID DOWN FILL

Hybrid Down Fill.

Lightweight dual fill insulation - strategically placed for ultimate thermal efficiency in cold, damp weather conditions.

ALPACA

Alpaca.

Alpaca wool blend insulates down to sub zero temperatures and will keep you warm even when wet. Lightweight warmth without bulk, highly breathable for extra comfort and hypoallergenic.

MERINO TECH WOOL

Merino Warmth.

A great weight-to-warmth ratio, Merino wool blend insulates in cold temperatures, regulating your body temperature, dries quickly once wet whilst naturally controlling odour.

WOOL MIX WARMTH

Wool Mix Warmth.

Blended fibre knit traps heat close to the body for intuitive temperature and moisture management, keeping you dry and comfortable.

WOOL LOOK WARMTH

Wool Look Warmth.

Inspired by natural fibres, Wool Look Warmth is designed to optimise comfort and range of motion with thermal efficiency and breathability.

WARMLOFT

Warmloft.

Premium synthetic down touch insulating technology. A highly compressible, soft-touch warmth without the bulk. Water repellent and quick drying to help reduce odour.

THERMOGUARD

Thermoguard.

Made up of synthetic fibres which trap the air keeping you warm in cold conditions. Quick drying and easy to care for.

MICROWARMTH

Microwarmth.

Advanced high loft synthetic fibres trap air in to hold warmth in cold conditions. Lightweight to provide a high warmth to weight ratio and benefits from being able to pack down and compress into a smaller size.

WINDPROOF

Regatta's wind resistant fabric technologies offer guaranteed protection from the elements. Whether you are tackling exposed mountain summits or hiking on blustery trails our ranges provide the best technology for all your outdoor adventures.

Softshell XPT.

Water repellent and wind resistant to keep you warm and comfortable during high energy activities. This breakthrough technology enables better breathability whilst the lightweight qualities give greater ease of movement.

Softshell Furbacked.

With a knitted high pile furback for increased warmth and comfort. Water repellent, wind resistant and offers wicking qualities to keep you warm and comfortable during high energy activities.

Softshell.

Water repellent and wind resistant to keep you warm and comfortable during high energy activities.

OTHER TECHNOLOGIES

Coolweave.

Made from 100% cotton, this fabric is cool to wear due to its airflow construction, drawing heat away from the skin, keeping you comfortable.

Coolweave Hybrid.

Coolweave Hybrid fabrics contain a high percentage of cotton fibres. Ideal for the great outdoors, they give a natural cooling effect next to the skin.

Coolweave Vintage Wash.

This garment has been specifically designed to feature a washed look that will continue to change over time and may vary due to washing effect.

Symmetry.

Comfortable and practical to wear, perfect for the outdoors with an anti-pill finish making it durable and long lasting. Quick drying, easy to care for and super soft to provide extra comfort.

Thermal Balance Plus.

Provides outstanding warmth to weight ratio, ideal for layering garments. The anti-pill fabric makes it soft and durable - quickly wicks moisture away keeping you comfortable and free from windchill.

Extol Stretch.

Regatta's warm backed stretch fabric technology is ideal for high energy outdoor activities, with a quick drying finish to minimise rain impact and provide protection from windchill.
