

## ALPINE APPROACH

CUSTOMIZABLE FIT THANKS TO THE MULTI FIT FOOTBED TECHNOLOGY AND TO THE EXTENDED CLIMBING LACING. DURABILITY IS GUARANTEED THANKS TO A FULL RUBBER RAND WHILE HIGH PERFORMANCE GRIP ON ROCK AND STONES IS PROVIDED BY TECHNICAL VIBRAM® STICKY RUBBER SOLES.

FOOTBED

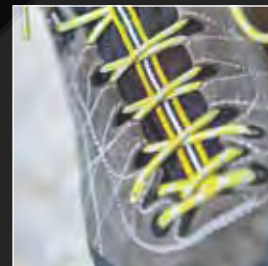

### RUBBER RANDS

Enhances both protection from rocky edges as well as grip during the climbing phase.

### EXTENDED CLIMBING LACING

A technical extended lacing towards the front which allows a full fit customization providing precision and comfort.

### MTN TRAINER SOLE SYSTEM

Double density Microporous midsole for ultimate edging and performance on rocks, new PU shock absorber for maximum comfort over. Combined with the Vibram® Mulaz outsole for durability and grip.
