

## **Full-face technology**

The name says it all - Unica is Seac's exclusive full-face snorkeling mask. We have meticulously crafted even the smallest details to ensure comfort and natural breathing through your nose or your mouth. Its attractive design and patented technical solutions are offered in two sizes (for adults, and for people with medium-size faces, perfect for women and children) and a range of colors that make Unica truly one of a kind.

# UNICA

COLOR

Unica is the full-face snorkeling mask designed and manufactured by Seac. It allows you to explore the world below the water's surface, breathing naturally through your nose and mouth. Exhaled air is vented through an exclusive patented system located in the front of the mask to make exhaling effortless and eliminate the noise that purge valves make. A separated channeling system for inhaled and exhaled air prevents the lens from fogging. The snorkel features a Dry Top to prevent water from entering the tube. Full-spectrum view, with a 180° field of vision. The liquid silicone skirt and polycarbonate frame and lens offer enormous comfort. A comfortable and flexible retaining strap holds the full-face mask to your head. An efficient water purging system uses a dump valve in the lower part of the skirt. Available in 2 sizes.

# UNICA MD

COLOR

Also available in the MD version, designed for thinner faces and for children, Unica has a patented expulsion system for exhaled air. The in and out circuits are separate, with independent breathing flow conduits for inhaling and exhaling to provide the utmost safety and prevent the lens from fogging. The MD version of Unica also features a dry valve mouthpiece, a skirt in the finest silicone, and a panoramic lens for an amazing field of vision. Available in assorted colors.
