Hot-forged light alloy oval carabiner with removable captive bar.

## OXY BC / OZONE K0016

- the carabiner is more narrow fits better with small hands
- keylock nose is more angled to make handling easier
- locking sleeve has rougher notches and thicker profile to be more durable
- available also with removable captive bar
- now 6 g lighter, minor axis strength reduced

## MAINTENANCE

Lifetime of the product is not strictly limited by the manufacturer. Depending on the condition of the product and its history it may be necessary to retire it immediately.

Mobile components may be lubricated the with a specific silicone based lubricant.
