MODE

The CYANO Dive Computer supports both Diving and Daily activities. Through the DIving Mode you are able to enjoy a safe and fun dive, with the help of bluetooth you will be also able to see and arrange a detailed profile of your dive log. For Daily activities you could access a simple and clear design of watch faces with personalized alarms to suit your daily schedules.

Diving Mode

NDL TIME / Diving Time / Depth / Temp / Deco Time
Diving Log / Stop Watch / Current Time / Navigation
Acsent, Descent Bar / 2min. Beofer DECO alarm
Warning Alarms / No-Fly Time / Surface Interval

Watch Mode

16 types of watch faces (Analog & Digital)
Alarm / Basic Settings

UI

A Diving Computer is a very important Equipment especially when diving at depths, so it is crucial that a Diving Computer could deliver a bright and clear view of the information needed. Team CYANO did everything to make this happen by integrating and Intuitive UI and making all information shown on screen to be as clear as possible.

To enjoy CYANO everyday, alarms were included with its integrated daily mode. Also choose from digital to analog themes depending on your style.
