

# BAGGING ENGINEERED

A badly carried bag can lead to :

- back pain
- deformation of the spinal column

# ENGINEERED TO RESIST

BAGS DESIGNED TO LAST

Diagnostic

ATP Players spend 1200 hours on court per year and travel 100,000 km around the world.

Solution

Bags designed to resist extreme conditions of the ATP WORLD TOUR.

- Tarpaulin material : 50% more resistant than the 400D Polyester
- Reinforced bartack on all sensitive seams
- Thermally waterproof zippers

**TARPAULIN REINFORCED**
