

# SENSORFLEX™

Life on the Modern Trail is about being ready for anything at any time. Switching paths halfway through your day, jumping from plan A to plan B, and being flexible to adapt to changing times.

The SensorFlex™ comfort system is designed to support, cushion and flex with every movement. It lets you change when change is needed, and always lets you be flexible in your life, and on your feet.

# WE UNDERSTAND THE UNIQUE NEEDS OF KIDS' GROWING FEET.

Children's feet go through several stages of development and it's not until age five that their gait and foot structure begin to resemble those of adults. Timberland® kids' footwear is designed to address the unique needs of pre-walkers, toddlers and school-aged children. Timberland also offers innovative water- and stain-resistant technologies and methods to ensure proper fit.

## INFANT/CRIBBIES

0-1 Years

Youth Sizes: 12.5-3/  
Junior Sizes: 3.5-7

- Rugged and durable construction
- Arch support for school-age feet
- Water/stain resistant
- Flexible and comfortable support

## INNOVATION THAT BENEFITS KIDS

### SPLASH BLASTER™

Water- and stain-resistant technologies for everywhere kids want to go - even wet and muddy places.

### DOES IT FIT? SOCKLINER

Parents can use our special removable sockliner to see when their child has outgrown his or her shoes.

**WARM****PrimaLoft® ECO Insulation**

Stay warm and stay eco-conscious with PrimaLoft® Eco Insulation. It not only works to keep you warm with its patented ultrafine and multi-diameter fibers, it also works to keep you eco-conscious because its made of at least 60% PET.

**DRY****GORE-TEX GORE-TEX® Technology**

Keep dry and comfortable through the harshest winters and stormiest summers with Timberland® products featuring Gore-Tex waterproof technology. It keeps water from coming in yet allows internal moisture – and you – to get outside.

**SiO<sub>2</sub>**

Look casual but be prepared with Water Resistant footwear, apparel and accessories from Timberland. Always be prepared for a sudden sprinkle or hidden puddle.

**Splash Blaster™**

Water- and stain-resistant technologies for everywhere kids want to go—even wet and muddy places.

**TimberDry™**

Keep your feet dry and your footprint green with Timberland® footwear featuring TimberDry™. This waterproof liner keeps water out but your conscience clear because it's made with 50% recycled PET, the same stuff plastic bottles are made of.

**Timberland Waterproof**

A downpour or slushy sidewalk won't dampen your day when you're wearing waterproof shoes and boots from Timberland® that lock out moisture to keep your feet dry no matter the weather.

**DURABLE****Cordura® EcoMade Fiber**

Make every step you take one for the environment with Cordura® EcoMade fabric. Stylish, rugged and made with 100% recycled PET materials, this garment is four times stronger than standard cotton.

**Deflector Stain Blocker**

Our footwear is treated with a special water-based blended formula to repel water and oil-based spills and stains, and even scuffs so your favorite shoes can last as long as you love them.

**BREATHABLE****CLIMAPATH™ Climapath™**

Comfort starts with your feet. And feet that are in shoes and boots with breathable Climapath technology are drier and more comfortable. The unique venting system keeps your feet dry and comfortable all day long.

**COMFORT****Aerocore Energy System**

We've created a super lightweight sole that provides comfortable cushioning so you can stay on your feet longer. It's made of long-lasting materials that won't break down over time. It gives you instant cushioning from the very first step.

**SensorFlex™**

Tame uneven terrain with footwear featuring the comfort of SensorFlex™ technology, a three-layer system that provides active cushioning, constant support, and dynamic flex.

**Anti-Fatigue Technology**

Feel good and look good with Timberland's Anti-Fatigue Technology, a unique molded foam footbed that features an inverted cone system that absorbs shock and returns energy with every step.

**HoverLite™**

Step lighter and easier with HoverLite™ comfort outsole, integrating lightweight EVA cushioning and a streamlined rubber traction core for uplifting mobility that goes above and beyond.

**MirrorFit System**

MirrorFit comfort innovation is a sturdy midsole layer inside our footwear. We've created a molded last that follows the natural contours of the foot. Most last shapes are flat on the bottom.

**OrthoLite® Insoles**

Stay comfortable all day long with Timberland® footwear featuring lightweight OrthoLite® foam insoles. The ultra-breathable material never loses its ability to absorb shock and also provides moisture management protection and has antimicrobial treatment for odor control.

**Suspension Heel Technology**

Get height without compromising comfort with Suspension Heel Technology. This revolutionary high-heel technology absorbs shock and softens every step. And its curved shape enables a natural stride.

**TRACTION****Gripstick™ Rubber**

Stay on your feet, and on your game, with Gripstick™ rubber outsoles. Engineered for superior traction when you need it most, non-marking Gripstick™ rubber outsoles give you traction without leaving a trace.

**L7 Traction Lug**

Keep your footing, and your sense of style, with outsoles featuring L7 Traction Lug technology. Multi-directional leading edges and beveled sidewalls give you confidence whether you're navigating a winter sidewalk or a summer boardwalk.

**OctoTread**

Navigate the city with the sure-footed grip of these gecko-inspired OctoTread outsoles. Its micro-dimpled surface features self-cleaning lugs that shed dirt easily. So the only footprints you leave are on the ground.

**Recycled Rubber**

Combine what you stand for with what you stand on with these 34% Recycled Rubber soles. They deliver the traction and durability you demand whether communing with nature or commuting to work.

**Vibram® Outsole**

Get superior traction and rugged durability with Timberland® shoes and boots with Vibram® outsoles. Crafted with safety and durability in mind, these outsoles also feature rugged good looks that get attention anywhere you go.

**ADAPTABLE****All-Fit**

Get comfort and style with Timberland boots featuring All-Fit. This stretchy panel in the back of the boot expands only as much as is needed to give you a sleek look and a perfect fit.

**EARTHKEEPERS**

---

**Gold/Silver Rated Leather**

Get instant comfort, and karma, with footwear and apparel made with Timberland® leather from tanneries that merit gold and silver ratings from the Leather Working Group for their water, energy and waste management practices. Durable, rugged and beautiful, it will last season after season.

---

**Organic Cotton**

Look good and feel good wearing Timberland products made with organic cotton, free of genetically modified seeds, synthetic fertilizers or pesticides. It's better for the ecosystem and your personal style.

**ReCanvas™**

Be cool, in more ways than one, with ReCanvas™, a rugged, lightweight breathable fabric that wears and feels just like cotton canvas yet it's made of 100% post consumer recycled PET.

---

**Recycled PET**

Decrease your environmental footprint with Timberland® footwear made with recycled PET. The same material used to make plastic water bottles, recycled PET lets you decrease your impact on the environment and look good doing it.

---

**thread Thread™ Fabric**

This product is made with up to 50% recycled PET from bottles collected in Haiti and Honduras. Crafted in the US, every yard of Thread™ fabric has a vibrant story backed with reliable production. It helps create jobs in the developing world, and helps Timberland create products more responsibly.
