

URBY SK8

Technical Specifications: Electric skateboard

URBY SK8	
BATTERY 	4.4 Ah Li-ion (158Wh)
AUTONOMY	9-12 km
POWER	500 W
WEIGHT	12 kg
SPEED	18 km/h
MAXIMUM WEIGHT	120 kg
MAXIMUM GRADIENT	18°
TIRE	6,5 "
PRICE	549€

Includes: Instructions Manual and Charger (220V/42V)

Samsung Battery 4.4Ah 36V (158WH)

Urby SK8 Electric Self balancing skateboard counts with a Samsung Battery of 4400 mAh. Its battery life depends on user weight and landscape usage - averaging 9-12 km.

The battery is charged within 2 hours. The battery indicates its full charge with a green light appearing on the top part of the charger. Urby is committed to the highest standard of customer support and offers a 6 month warranty on these high quality batteries with UN38.3 and MSDS Certificates.

Bluetooth and blue led lights

Urby SK8 includes bluetooth speakers, pair with your mobile phone and play your mobile songs!
It also includes Blue LED lights around the board, in night looks like you are flying on a hoverboard.
In the front part includes 4 battery indicator lights to indicate battery level.

Clean energy and minimal consumption

Urby's electric Skateboard consumes 1 KWh to cover 50 km or 0,44€/100Km. In comparison, a car's consumption in an urban environment is 8€/100Km on average - making the Urby 20 times more economical.

With Urby, forget about finding parking, traffic, pollution or congestion.
