LIMITED WARRANTY/LIMITATIONS OF REMEDIES AND LIABILITY USA AND CANADA

<u>Limited Warranty.</u> Cascade Designs, Inc. ("Cascade"), to the original owner ("Owner"), under intended use and maintenance, warrants the enclosed product ("Product") to be free from defects in materials and workmanship for the life of the Product. No warranty against defects in materials and workmanship will apply if Product is (in altered any way, (ii) used for purposes inconsistent with Product's intended purpose or design, or (iii) improperly maintained. Warranty will furthermore be voided where Owner/user (i) failed to follow Product instructions or warnings or (ii) subjected Product to misuse, abuse, or neglect.

During the warranty period, original Product parts determined by Cascade to be defective in materials or workmanship will be repaired or replaced as Owner's sole remedy. Cascade reserves the right to replace any discontinued product with a new product of comparable value and function. A returned product deemed irreparable becomes the property of Cascade and will not be returned.

EXCLIDING THE LIMITED WARRANTY PROVIDED ABOVE, CASCADE, ITS AFFILIATES AND THEIR SUPPLIERS, TO THE MAXIMUM EXTENT PERMITTED BY LAW, MAKE NO WARRANTIES, EXPRESSED OR IMPLIED, AND DISCLAIM ALL WARRANTIES, DUTIES AND CONDITIONS, WHETHER EXPRESSED, IMPLIED OR STATUTORY, WITH RESPECT TO THE PRODUCT, INCLIDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY, AGAINST LATENT DEFECTS, FITNESS FOR A PARTICULAR PURPOSE, OR CORRESPONDENCE TO DESCRIPTION.

<u>Warranty Service.</u> To obtain service under this warranty, the warranty-eligible Product must be presented to a Cascade authorized dealer. In the United States and Canada, warranty service may also be obtained by calling 1.800.531.9531 (M. F, 8.00 a.m. - 4.30 p.m., PDT). Owner is responsible for all costs associated with returning Product to Cascade for service. Where at its sole discretion Cascade deems Product eligible for warranty repair or replacement, Cascade will pay the shipping and handling associated with returning repaired or replaced Product to Owner. In instances where Cascade eems a returned product ineligible for warranty service, Cascade will, if possible, repair product for a reasonable charge that includes return shipping and handling. For warranty return service details, please go to www.platypustyhdration.com.

<u>Limitation of Remedies.</u> Should a court of competent jurisdiction find the limited warranty set forth above breached. Cascade's only obligation will be to, at its option, either repair or replace Product. Should the aforementioned remedy fail of its essential purpose, Cascade will, in exchange for return of Product, refund to Owner Product's original purchase price. THE FOREGOING REMEDY IS THE SOLE AND EXCLUSIVE REMEDY OF THE PURCHASER AGAINST CASCADE, ITS AFFILIATES AND THEIR SUPPLIERS, REGARDLESS OF LEGAL THEORY.

Limitation of Liability. Cascade's, its affiliates' and their suppliers' maximum liability is limited to incidental damages not to exceed the original purchase price of the Product. CASCADE, ITS AFFILIATES AND THEIR SUPPLIERS HEREBY DISCLAIM AND EXCLUDE ANY LIABILITY FOR ANY CONSEQUENTIAL OR OTHER DAMAGES RESULTING FROM ANY REASON WHATSOEVER. THIS EXCLUSION AND LIMITATION APPLIES TO ALL LEGAL THEORIES UNDER WHICH DAMAGES MAY BE SOUGHT, AND WILL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE.

This limited warranty gives Owner specific legal rights; Owner may have additional rights, which may vary state to state.

Always completely follow safety, use, operation, and maintenance instructions for this or any other Cascade product.

European Union customer statutory rights are not affected.

LONG-TERM STORAGE AND DISINFECTION

To eliminate the growth of bacteria or mold and help maintain flow rate, always disinfect the filter before and after long-term storage, or after long-term use (15+ days).

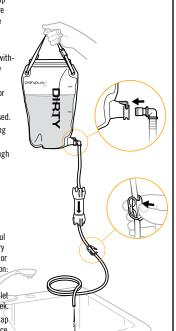

- 1. Rinse Dirty Reservoir with clean water.
- Mix a solution of 2 drops of household bleach (without fragrance or dyes) to 1 liter of water in Dirty Reservoir, and zip closed.

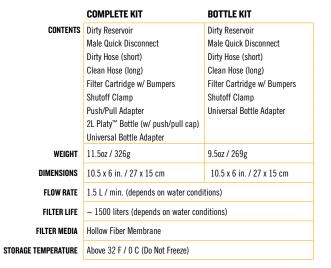

Note – handle bleach carefully as it can discolor clothing.

- 3. Assemble Filter System with Shutoff Clamp closed.
- Place end of Clean Hose in sink and hold or hang Dirty Reservoir above sink.
- 5. Open Shutoff Clamp and let solution filter through system.
- 6. Rinse all other parts with clean water.
- Air or towel dry GravityWorks system parts completely.

Note —It is not necessary for the inside of the Filter Cartridge to dry completely, as the bleach in the solution will prevent the growth of harmful microorganisms and biofilm. However, a fully dry liter helps protect against damage from drops or freezing. To dry filter completely after disinfection:

- Remove gray protective bumpers from filter.
- Remove white and black thread-on caps and let filter sit at room temperature for at least 1 week.
- To avoid cross contamination, replace white cap on outlet of filter, black cap on inlet side. Replace protective bumpers.
- 7. Pack and store GravityWorks assembly in storage sack.

WARNING

BIOLOGICAL HAZARD

There are hazards associated with backcountry travel and the use of water filters. Drinking untreated water may expose you to harmful microorganisms and increase your risk of gastrointestinal illness. Using this filter improperly increases your risk of exposure to harmful microorganisms and increases your risk of gastrointestinal illness. Reduce your chances of becoming sick by following the warnings and instructions in this manual and educating yourself on backcountry water safety.

YOU ARE RESPONSIBLE FOR YOUR OWN SAFETY AND THE SAFETY OF THOSE IN YOUR GROUP.

PLEASE USE GOOD JUDGMENT.

Never use the GravityWorks[™] to filter seawater or chemically contaminated water, such as water from mining tailing ponds or near large agricultural operations. The GravityWorks does not make drinkable water from these sources and does not remove all viruses, chemicals and radioactive materials, or particles smaller than 0.2 microns.

Keep the hoses and other potentially contaminated parts away from filtered water to prevent cross contamination.

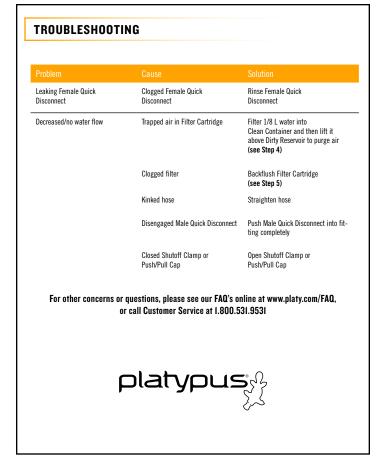

READ, UNDERSTAND, AND FOLLOW ALL instructions and warnings in this manual before using this filter. Failure to follow warnings and instructions may result in gastrointestinal illness.

IMPORTANT

Read and understand this entire manual carefully before assembling or using this water filter.

Keep this manual for future reference. If you do not understand this

manual or have any questions, please call Cascade Designs at 1-800-531-9531.

TIPS

TAKE ONLY WHAT YOU NEED

When filtering into small-diameter openings and hydration hoses, the two-part Universal Bottle Adapter lets you leave the threaded outer portion at home to save space and weight.

ILTER CARTRIDGE

Extend your filter's lifespan by backflushing every 2–4 liters (Step 5). If backflushing fails to restore water flow, replace cartridge.

On extended trips, bring along a spare cartridge.

Learn the very easy Filter Integrity Test. If the cartridge freezes or is dropped hard, test it to be sure it is not damaged.

WATER COLLECTION AND PREPARATION

Use the cleanest, clearest water available. Avoid water that is muddy, silty or tea-colored if at all nossible

To treat water with suspected waterborne viruses, use an approved disinfectant such as MSR® Aquatabs® (www.msrgear.com). For more information, see the Centers for Disease Control Web site: www.CDC.gov.

OPERATION

To maximize water flow, hang or hold the Dirty Reservoir as high as possible without putting tension on the hoses or pulling the clean container off the ground.

Trapped air in the top of the Filter Cartridge may reduce flow rates. Purge trapped air at the beginning of each use (Step 4).

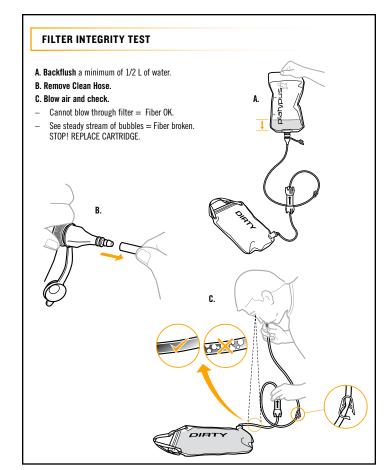

"Dirty"-side connection points are GREY or BLACK and "Clean"-side connection points are BLUE or WHITE. To avoid cross contamination when filtering water, do not let any BLUE/WHITE components come into contact with unfiltered water and keep GREY/BLACK components away from filtered water. If you suspect your filter has become cross-contaminated, see instructions for long-Term Storage and Disinfection.
