

**YEAR 2019 SPEEDPLAY ROAD SHOE COMPATIBILITY GUIDE\*\***  
**ZERO, ZERO AERO, ZERO PAVÉ, ULTRA LIGHT ACTION OR LIGHT ACTION PEDALS WITH**  
**WALKABLE CLEATS**

**WARNING! - Use only Walkable Cleat Fastening Screws supplied with Zero Aero or Ultra Light Action Walkable Cleats.** Do NOT use previous versions of Cleat Fastening Screws with the Zero Aero or Ultra Light Action Walkable Cleats. All previous versions of Cleat Fastening Screws are not compatible with Zero Aero or Ultra Light Action Walkable Cleats and can affect the engagement and retention of the pedal system which can lead to a fall that can result in severe injury. **Never install cleats using any combination of new cleat parts and old cleat parts.** When replacing cleats, replace **all** used parts with Walkable Cleat parts.

**NOTE: VARIATIONS IN SHOE SOLE CURVATURES MAY REQUIRE SNAP SHIMS OTHER THAN THOSE RECOMMENDED BELOW. PLEASE VISIT OUR WEBSITE AT [WWW.SPEEDPLAY.COM](http://WWW.SPEEDPLAY.COM) TO SEE OUR CLEAT INSTALLATION VIDEO UNDER TECH SUPPORT / VIDEO LIBRARY.**

**2019 MODEL SHOES COMPATIBLE WITH FACTORY-INSTALLED 5-F AND 5-R SNAP SHIMS**

Bont 3 hole // Bontrager Nylon // Bontrager Silver Series Carbon // Crono CR - 1 CR - 3 // Exustar // FLR // Lake

**Shoes with 4-hole cleat pattern (Speedplay V.2 Base Plate not used).**

Bont / DMT / Lake / Rocket 7 / Sidi / Vittoria / Gaerne / Riivo / Pinnacle Racing	Current year & earlier	Omit V.2 Base Plate. See note below regarding 4-Hole Carbon Fiber Soles.
---	------------------------	--

**For Shoes and Years not listed, Please call Speedplay for assistance.**

**4-Hole Shoe Soles:** Must use the Walkable Cleat Protector Shim Kit (Part #14135), sold separately and available from Speedplay, to prevent contact between the pedal body and the shoe sole. If the Walkable Cleat Protector Shim Kit is not used, serious wear damage to the shoe sole and the cleat will result.

**WARNING! - Do not use the Snap-Shim Cleat mounting screws with any previous models of Speedplay X cleats including the Slim Line Cleat. The Snap-Shim Cleat mounting screw heads are too small and may pull through the older base plates. This may cause the cleat to pull off the shoe causing a fall that may result in severe injury.**

**\*\* See detailed photos of select sole mountings and the latest updates for shoe compatibility at [www.speedplay.com](http://www.speedplay.com) or call the Speedplay Tech Department at 1-800-468-6694 (PST).**
