イキ BY OGK

Hi,

You made an excellent choice in buying the Urban Iki Rear seat, the child bike seat for taking your child on the best bike trips.

Urban Iki by OGK has been developed by Dutch and Japanese designers and the Urban Iki products truly combine the best of both worlds. OGK has been producing innovative products for cycling consumers for eighty years and is the ultimate bike seat expert in Japan, the world's utmost bicycle country. Technology and safety at the highest level. Japanese know-how and world-renowned Dutch design are brought together in perfect harmony in your Urban Iki bike seat.

The Urban Iki Rear seat child bike seat can be easily attached to your bike rack. To this end and for the safety of both you and your child, your bicycle must be fitted with an ISO 11243 (EN 14872 for Europe) compliant luggage rack that can support a weight of up to 25 kg. This box contains a separate mounting bracket for bikes without a (suitable) rack. " An additional luggage rack frame or an additional frame mounting bracket for a second bicycle are also available as separate accessories. The Urban Iki Rear seat is no longer suitable for transporting your child if he or she has outgrown the seat and exceeds the weight of 22 kg. Visit www.urbaniki.com for our complete range of products and all available accessories.

User Manual

The Urban Iki Rear seat is easy to assemble and attach to your bike. This user manual will explain step by step how to do this quickly and easily for you to be on your way quickly and enjoy your bike together with your child. Please read the manual carefully before using the Urban Iki Rear seat and follow the instructions for safe use closely. This will ensure lots of safe cycling fun.

To avoid risk of suffocation, keep all plastic packaging materials out of reach of babies and children. Dispose of the packaging immediately.

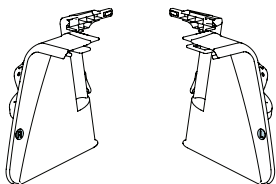

What makes the Urban Iki Rear seat unique

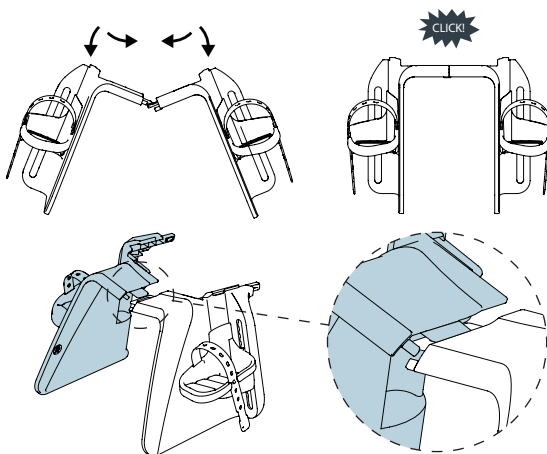

How to assemble your Urban Iki Rear seat

Your Urban Iki Rear seat child bike seat is easy to assemble. You only need to click together the left and right leg parts and slide them onto the seat as a whole. The leg parts are attached to the seat correctly when you hear a click and feel that the leg parts can no longer slide back.

Step 1: Snap leg parts together

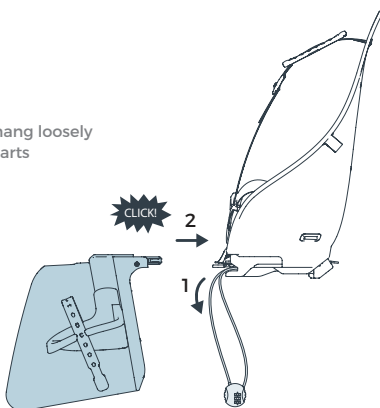

Leg parts (left + right)

Step 2: Slide leg parts under the seat

1. Let cable hang loosely
2. Slide leg parts

How to attach your Urban Iki Rear seat to your bicycle

The Urban Iki Rear seat is suited for transporting children with a maximum weight of 22 kg between the ages of nine months to about six years old. Check whether using the Urban Iki Rear seat is legally permitted in the country in which you wish to use it.

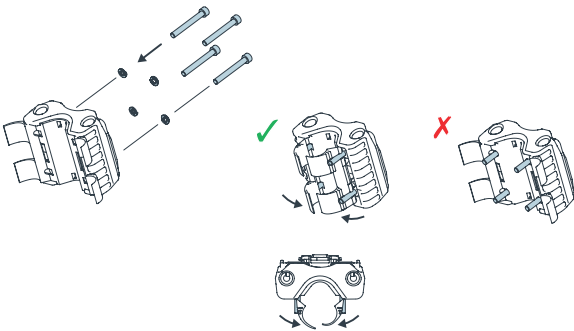

The bike seat can be attached to any bike rack with a width between 120 and 175 mm or on the bicycle frame. Only use the Urban Iki Rear seat on bikes that are equipped to carry heavier loads.

Consult your bicycle's manual or ask the bicycle's manufacturer, if your bicycle is technically equipped to carry the Urban Iki bike seat, then you can attach it as follows.

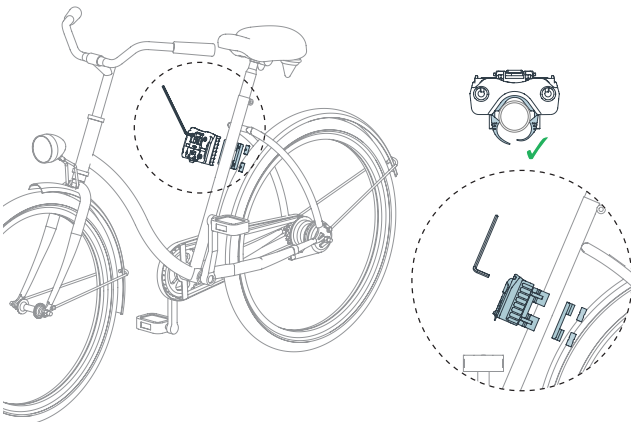

Step 1

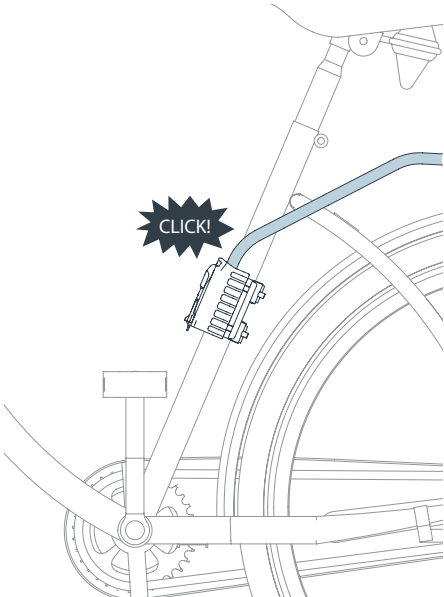

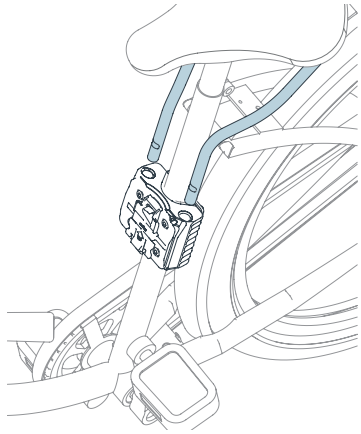

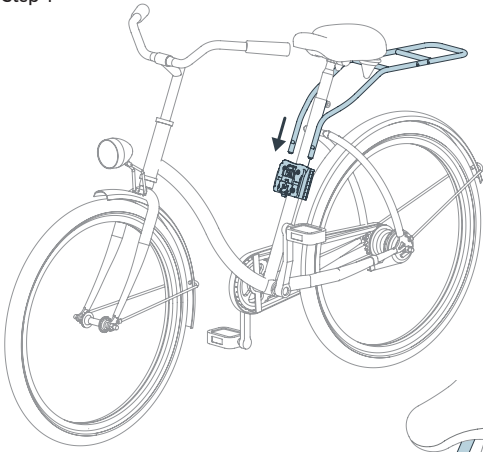

Step 2

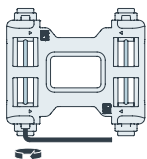

Step 3

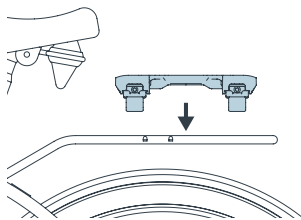

Step 4

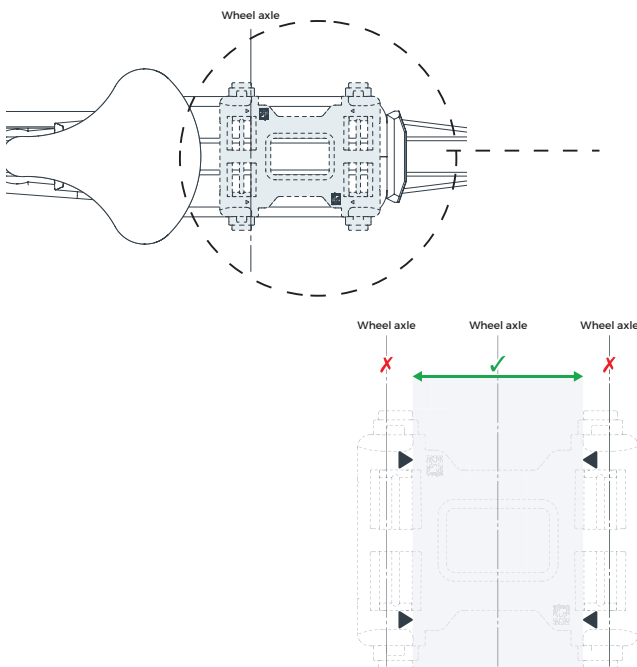

Step 5: Loosen

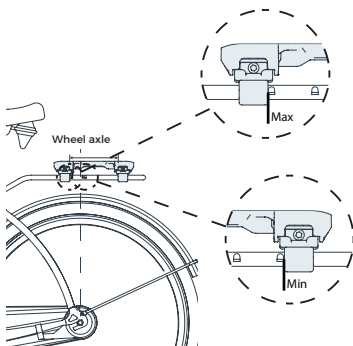

Step 6: Place on the carrier

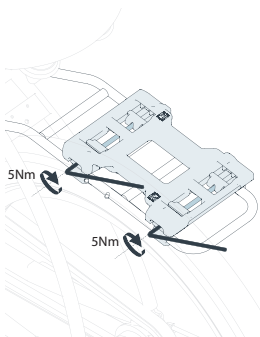

Step 7: Position on the carrier

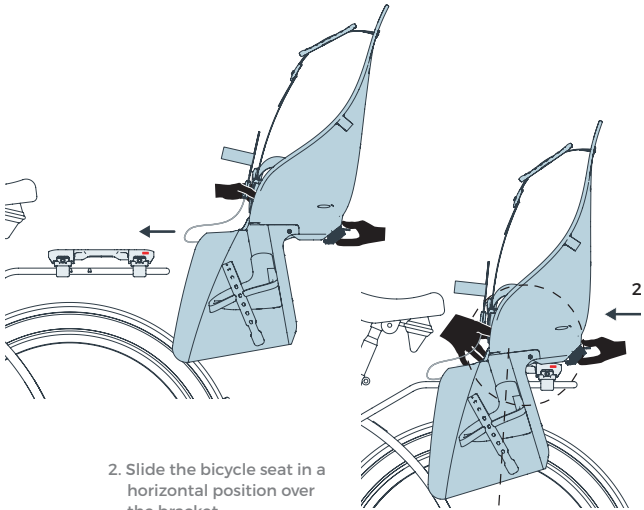

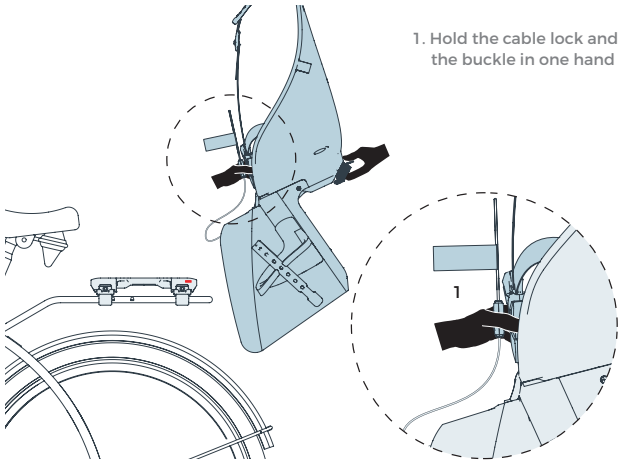

Step 8: Check position

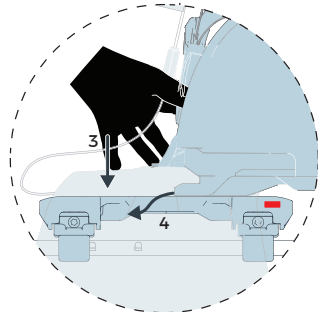

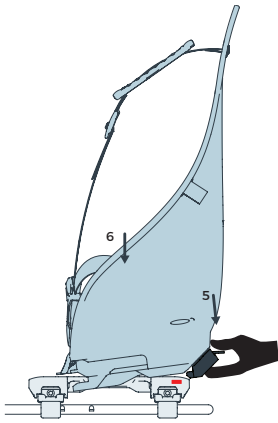

Step 9: Tighten

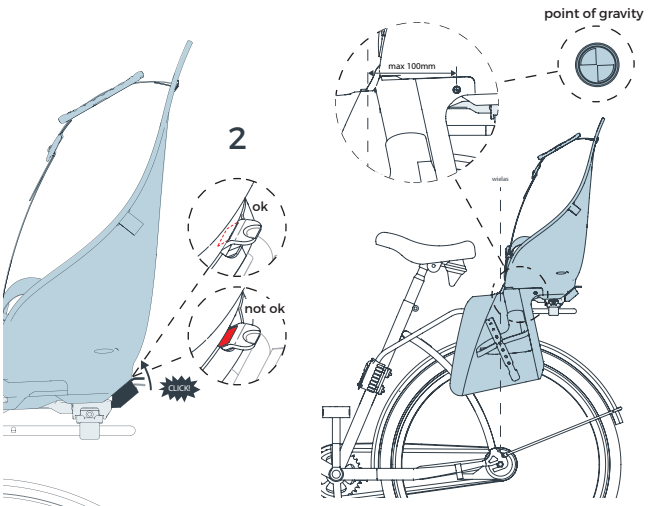

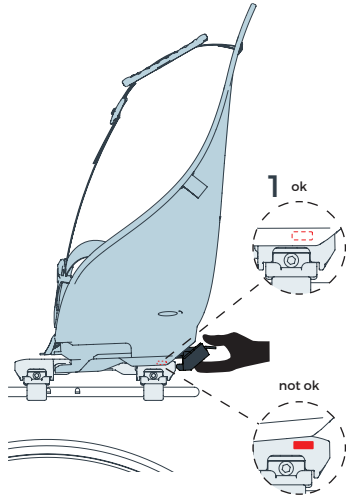

- 3. Press down the leg parts while sliding forward
- 4. Slide until the seat is in the most front position

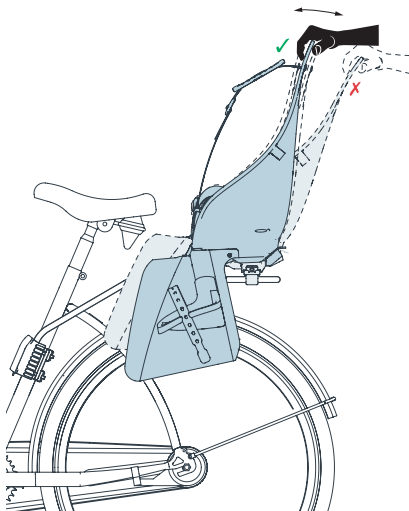

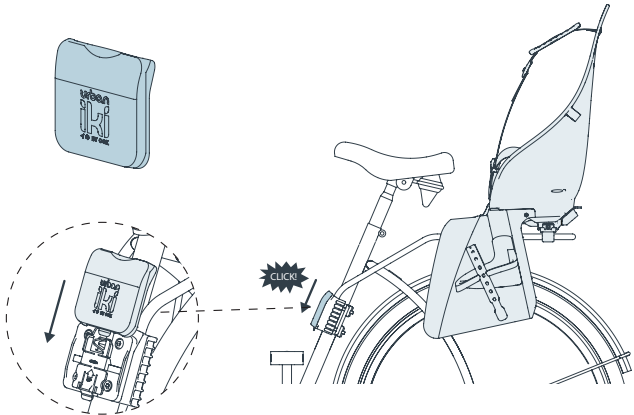

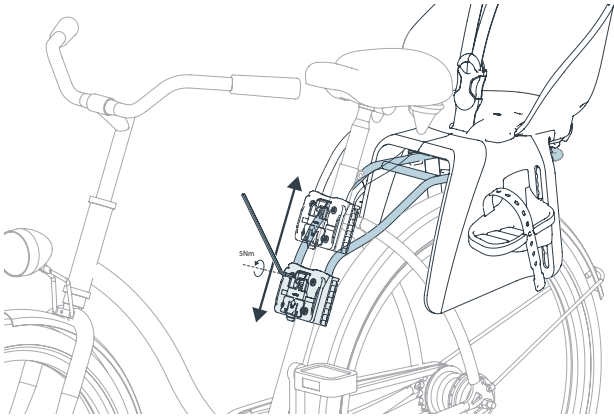

5. Press the clip down
6. Press down the seat

The seat is attached correctly if the red sticker on the side 1 and handle 2 is no longer visible.

Always check to see if you properly attached and locked the cable with combination lock around the frame when attaching the bike seat.

Set personal code

instruction video

Step 2: Remove the cable

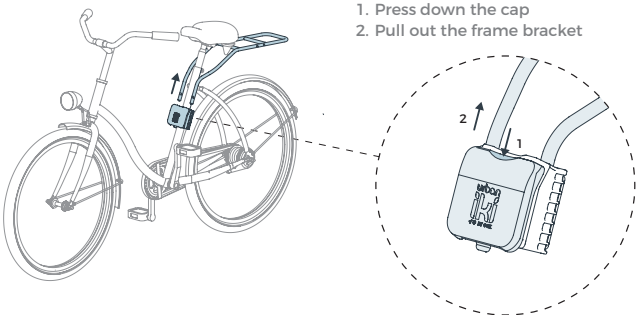

Step 3: Remove the bicycle seat from the frame bracket

- 1. Press button
- 2. Pull out

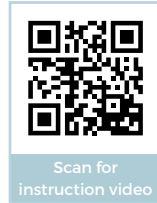

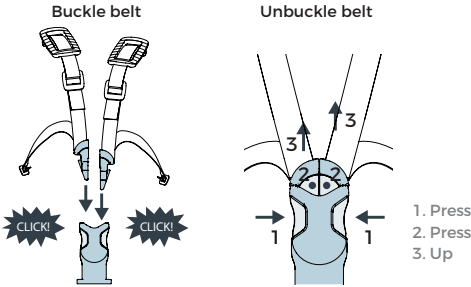

- 1. Press down the cap
- 2. Pull out the frame bracket

How to Use Your Urban Iki Rear seat

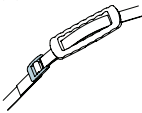

When using the Urban Iki Rear seat bike seat, check to see if the seat is attached correctly and do a short trial run without your child. If everything functions properly and you are not hindered when cycling, then you are ready to go cycling together with your child. Place your child in the seat and attach the safety harness tightly without squeezing. Set the foot rests to the correct height and make sure that the feet are locked into place by using the foot straps. Always make sure that no sharp bike parts are within reach of your child and make sure that your child does not wear clothes that can come into contact with any moving or turning parts of your bike.

Opening and closing the seatbelt

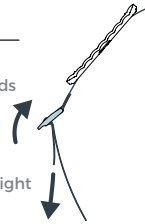

Adjusting seatbelt strap

Tighten belt

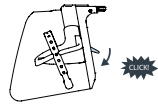

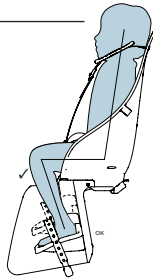

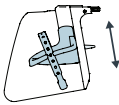

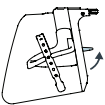

Tip upwards

Pull belt tight

Adjust foot supports

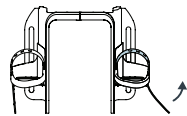

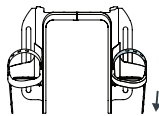

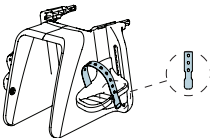

Step 1: Unlock

Step 2: Slide

Step 3: Lock

Adjusting foot straps

Step 1: Insert foot strap

Step 2: Adjust

Step 3: Loosen

Safe use, a few warnings:

- Only transport your child of nine months or older with a weight of 9 kg or more when he or she can sit upright independently for the duration of the planned trip. Check regularly whether your growing child is not too big or too heavy - a maximum of 22 kg - for the seat you are using.
- Always make sure your child is wearing suitable clothes for the trip and is protected against the rain; after all, your child sits motionless and will get cold quickly.
- Never leave your child in the bike seat by himself/herself without you holding the bicycle. Make sure your bike is equipped with a sturdy (double) kickstand.
- If you have a bike saddle with saddle springs, then cover these springs to avoid crushing and injuring your child's hands and fingers.
- Ensure the bike seat has not been exposed to the heat of the sun before placing your child in the seat.
- Never make custom adjustments to the bike seat and always contact the store where you bought the seat or Urban Iki's customer service in case of any defect. Do not use the bike seat in case of a defect part.
- Always remove the bike seat when transporting your bike on a car bicycle rack. Turbulence can damage or dislodge the seat, thus making it unsafe for use.
- Always lock the harness of the bike seat, even when cycling without your child. This prevents entanglement with the harness.
- Only use the bike seat for transporting a child on your bike. Bags or other luggage are best transported on the bike or attached to the opposite position of your child, thus equally distributing the weight on your bike.
- Do not lift your bicycle by the bike seat.
- Urban Iki recommends using a helmet that fits your child well.
- Your Urban Iki child bike seat is intended for day-to-day transport of your child; it is not suitable for off-road and ATB tracks.
- Cycling with a child in a child bike seat can influence your bicycle's handling. This applies especially to cornering, braking and departing.
- You need to be 16 or older to be allowed to transport a child with an Urban Iki bike seat. Corresponding legislation may differ depending on the country.

Maintenance, Warranty and Service

If you maintain your Urban Iki bike seat well, it will last you a very long time. Cleaning the bike seat with a cloth, lukewarm water and a mild cleaning agent from time to time is sufficient.

Urban Iki products have been developed and manufactured according to the highest quality standards. The Urban Iki Rear seat bike seat has been tested according to the highest applicable European standard EN 14344. The renowned institute TÜV has issued a certificate as proof of meeting the requirements of this standard.

We issue a two-year warranty on your Urban Iki Rear seat bike seat. This warranty period enters into effect on the date of purchase as stated on the receipt. Store this receipt safely to be able to make use of this warranty.

Warranty is excluded in the following case:

- Improper use of the product other than stated in the user manual.
- Not offering the product with the original receipt within the warranty period.
- Repairs performed on the Urban Iki bike seat by third parties
- Any defect that is the result of improper, careless use or maintenance, negligence or accident.
- Normal wear and tear of components that is to be expected in the daily use of a product.

The issued warranty is in accordance with European Directive 99/44/EC of 25 May 1999.

In case of a complaint or a defect of your Urban Iki bike seat, please feel free to contact the store where you bought your Urban Iki bike seat directly or contact our customer service.
